ARHAUS

The Arhaus collection creates intrigue as a visual paradox, making unconventional use of solid wood as hanging pendant shades. The solid, lathe turned pendants of sculpted wood shapes are lit with dimmable 3 Watt LED modules in 3000K and straddle the design spectrum from industrial to modern and rustic luxe. For a fresh take on the traditional chandelier, group several pendants together at various heights in a soft organic cluster.

CASCADA

A natural wonder sculpted in glass, the Cascada evokes the feeling of a rain shower in a graceful swirl of Egyptian crystal spheres. The rainfall that is evoked by the large and small crystals is made possible by their suspension from strands of sheer monofilament that hang in natural torrents from a chrome flush mounted canopy with puffed metal-vented trim. A conversation piece wherever it's placed, the Cascada illuminates drama on a grand scale.

NUCLEUS

Circle meets the square in the contemporary pendant Nucleus collection. The sophisticated design of the double layer Clear/White glass shade speaks volumes as to the truth of less equaling more. Clear-glass spheres define the unique profile of this exquisite kitchen island/billiard application. And nestled inside each sphere is an inner cube of opal glass which holds a xenon light source, secured by a Polished Chrome lamp holder and a Brushed Aluminum frame.

Modern art meets modern light, the Wink collection combines form and function in a unique, wall-mounted hemisphere. Powerful, but hidden, Xenon lamps spill light through elliptical orifices in the dome refracting and diffusing the warm glow. In Polished Chrome, reflections radiate and add to the dance of light; a Satin Nickel finish creates a more subtle effect; and Matte Black makes an understated impact.
