

# Arabella

---

A new take on French style that combines classic European elements with modern forms, then adds metals and a touch of glam to create an industrial luxe look

**HOOKER**<sup>®</sup>  
— FURNITURE —

# Elements

---

Our **Arabella collection** marries two of the most pervasive home furniture trends in the last several years – industrial interiors and laid-back luxurious looks – for a result much greater than the sum of two parts. The new direction takes industrial style, which can become cold and stark, and makes it softer and more romantic by anchoring the look in classic French elements with touches of glam and sparkle.

Accent finishes include eglomise (painted mirror), textured metal and heavily waxed aluminum. Marble is also used in the collection, along with washed linen on dining chairs and the upholstered bed.

All cases finished in the white finish have a luxurious heavily-waxed aluminum top for a true French industrial feel. All finishes can be mixed and curated to create the ideal industrial luxe room.

This whole-home collection of bedroom, dining room, living room and home office furniture offers three main finishes: A white finish on maple veneer with crackle and champagne shimmer; a heavily-painted charcoal on oak veneer and a warm wood tone on oak veneer. The heavily painted charcoal and warm wood finish are used together to create a two-tone look on most cases and tables where it is used.

# Quality

---

## Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

## Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

## Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Headquartered in Martinsville, Va., Hooker Furniture employs approximately 600 people at our Virginia and North Carolina locations. Our high-fashion custom upholstery by Sam Moore Furniture is manufactured in Bedford, Va., and our upscale leather upholstery line is manufactured in Hickory, N.C. by Bradington-Young. Our designers travel the world to find artisans and craftsmen who uniquely possess the necessary skills to meet our high quality standards.

We strive to provide an accurate representation of our finishes but due to changes in lighting and printing limitations, some color variation is possible. To determine the exact color of a finish, we suggest you visit a Hooker Furniture Retailer to see the actual product.

Hooker Furniture strives to make the world a better place to live through leadership in all of our business practices.
