

Mélange®:
French. A mixture of incongruous elements.
Come closer to Mélange®, and you will discover something unexpected, something far more than an accent furniture collection offering a multitude of finishes. An eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces, Mélange® is meant to inspire you and fuel an experience of self-discovery. Mélange® can provide that spark needed to begin the transformation of a room and a renaissance in your life. Each piece of Mélange® has its own story. The designs are versatile and timeless, easily transcending from one life stage to the next, from home to home and generation to generation. The three style themes of Mélange® – Modern/Classic, Pretty/Feminine and Eclectic—will help you identify and define your own individual style.

Rafferty Mirror (bottom left)
 Modern sophistication with a respect for the classics makes the Rafferty Mirror an enduring icon in your home. Mounting/hardware D ring locations enable you to have the option of hanging the mirror two different ways: one in which emulates the design of the base of the Rafferty Console, shown on page 58, and the other in which appears to be more of a contemporary square...so the lines are either of an "X" shape or a "+" shape.
 Hardwood Solids, Pine Veneers
 40Dia x 11 1/2D (102 x 4 cm)

638-85002

Headquartered in Martinsville, Va., Hooker Furniture employs approximately 600 people at our Virginia and North Carolina locations. Our high-fashion custom upholstery by Sam Moore Furniture is manufactured in Bedford, Va., and our upscale leather upholstery line is manufactured in Hickory, N.C. by Bradington-Young. Hooker also imports an extensive line of wood and metal furniture from factories around the world, including Asia, Mexico and Central America. The design of these imported furnishings is carefully overseen by Hooker in compliance with our high quality standards.

Many of our furniture items are constructed of hardwood solids and veneers over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

We strive to provide an accurate representation of our finishes but due to changes in lighting and printing limitations, some color variation is possible. To determine the exact color of a finish, we suggest you visit a Hooker Furniture Retailer to see the actual product.

Hooker Furniture strives to make the world a better place to live through leadership in all of our business practices. To learn more about our commitment to environmental stewardship, visit hookerfurniture.com/green.
