STUDIO 7H

dining room • bedroom • living room tables
home entertainment • home office

Have you noticed that imagination can be more real than reality?

You'll want to come sit by us then, just around the corner at Studio 7H. It's an imaginary world where very real things happen. Namely, a makeover for a familiar old friend: the furniture collection.

It was like pulling a thread.

First, a great design on the drawing board. Then another. And more. A credenza that refused to stay put in the dining room. Bedside tables that left their mates. Multiple wood finishes that stand alone or suit up. Metal mingled into the mix. Sofas and chairs wanted in. At the end of the day, intriguing Studio 7H personas emerged -- Mid-century Modern, Scandinavian, Rustic Chic and European traditional with a twist -- all singular and mixable and beautiful.

Pick the Studio 7H pieces you love and watch things come together. Great items work the room or go their own way. Just like your best parties. Unplanned, often random, but always perfect. And totally real.

Scandinavian - Conscious uncoupling in the world of interior design can be a good thing. By design, Studio 7H personas, like Scandinavian, can mix and mingle throughout a space. No rules. However, if Scandinavian is the love of your life, there's your answer. Build your world around it.

Rustic Chic - Studio 7H's Rustic Chic finds seem to say, "rescue me." It's brand-new furniture that doesn't need breaking in. Individual pieces will feel like reclaimed artifacts in a modern home. True Rustic Chic pinners and pioneers will lay claim to multiple pieces, creating an authentic, whole-home vibe.

Mid-Century Modern - Purists, stay true to Mid-Century Modern inspiration and build a room around this persona. For the more adventurous, create your own signature playlist with singles from other Studio 7H personas. After all, it's your mix.

French Café - The primary charcoal finish is lightly distressed with wood rub-through, and the accent finish is a soft antique white, both over oak solids and veneers. Metal accents are in a mottled finish.

French Café

European traditional styling joins the Studio 7H portfolio with the addition of the French Café collection, inspired by the inviting and intimate L'Usine Café in France. Combining classic European and vintage elements with modern touches like mixed media and a casual and organic feel, French Café takes traditional design in a young and fresh direction. Mixed media touches such as a marble-topped round pedestal dining table with cast aluminum base add an eclectic feel and romantic charm.

Scandinavian

The great thing about Scandinavian Style is that it points a line back to the original authors of modern design – those inventive Danes, Swedes and Finns.

Scandinavian Chic is full of legacy, but conceived for today's spaces.

The look is organic and modern – wood finishes are light and thirsty and we've added natural elements like rope and metal to flesh it out. Form and function are important. Pieces can be multi-purposed. Scandinavian style stands alone or can mix with other personas so easily.

Out of sight, but not out of mind. Isn't that what we all seek in functional storage furniture? Norden actually over-delivers. Two spacious cabinets (with interior shelving) flank a center column of five drawers. Great function in a beautiful form.

Mid Century Modern

Mid-Century Modern is everywhere, but we really get into the crux of it here.

It's soft modern, but not rigidly interpreted. The low-sheen walnut finish is notable, but we mix it up with metal elements and very versatile forms that can move from room to room and mix with other pieces/personas.

Actually, Hi-Fis, turntables and record players were an inspiration. They're coming back because we all crave authenticity in this virtual world. The Mid-Century Modern persona taps into this.

Long playing ... let us count the ways. Hinged top opens to house your new-fashioned record player (turn table and sound bar not included). Jacketed vinyl albums stack upright (as they should) in the vertically slatted shelves beneath. And with a grateful nod to modern components, storage space abounds with shelving and storage space behind two doors. Outfitted with interior outlets to aid cord management.

Shouldn't furniture be useful, functional and available to all?

Quality Cues

Quality from start to finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

This two-piece Utility Credenza has an amazing work ethic. The four-drawer base offers lots of storage space, including two double-deep drawers, which can even serve as file drawers. And to top it off, a gorgeous vitrine display cabinet.
