

Koncept was born in 2002 when industrial designer Peter Ng and his two sons, Kenneth Ng and Edmund Ng, joined forces in order to harness years of manufacturing and industrial design experience.

The Koncept team has since designed a range of products that significantly influence the LED task lighting industry. Their works have been featured in major press such as TIME Magazine, Oprah Magazine, and Interior Design Magazine. Koncept has earned over 50 international design awards to date, including the Red Dot Design Award, iF Design Award and the Good Design Award.

Embracing modern, minimalist lines while maintaining rich functionalities, Koncept's designs strike the perfect balance between form and function.

KONCEPT

1-

Z-BAR pendant rise

The *Rise* is a three-dimensional addition to the Z-Bar Pendant line. Available in five different geometric configurations, these contemporary and minimalist pendants consist of modular light bars that independently rotate 360.° Direct the top light bars up to the ceiling and the bottom bars down to enjoy both

ambient and task light. Optional acoustic panels are available as an attractive solution to sound absorption.

Potential LEED Points

Integrative Process (Possible 2 points)

To support high-performance, cost-effective project outcomes through an early analysis of the interrelationships among systems. Koncept's LED desktop and task lighting provides finer control over lighting levels in occupied spaces. With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.

SUB pendant light

The Sub Pendant boasts a minimalist profile and emits a soft, warm glow. A continuous line of LED light wraps around the entire piece, allowing this pendant to function as both a task light for worksurfaces and ambient light for ceilings. The Sub is compatible with any ELV wall dimmer. The Sub complements rather than obstructs the aesthetic of its surroundings.

Z-BAR wall sconce

Designers Kenneth Ng & Edmund Ng

The sleek Z-Bar Wall Sconce can be utilized to highlight artwork or a mirror. Mounted solo, it can be appreciated as its own work of modern art. It can be hung horizontally, vertically, even diagonally on a wall or ceiling. The sconce comes in three sizes, the smallest of which can be mounted at the end of the light bar as well as from the middle. The slim LED bar is rotatable, giving users freedom to direct the light.

splitty

Designers Kenneth Ng & Edmund Ng

Red Dot Design Award 2018 iF Design Award 2018 Best of NeoCon Gold 2017 Interior Design Best of Year Honoree 2017 Splitty gets its name from its unique joint design and is one of the most flexible lights in the Koncept collection. When illuminated, the wide LED head casts an even glow thanks to the fully diffused light panel. Koncept designers perfected the diffused light source with hidden LEDs so that the lamp performs as a radiant ambient light as well as a functional task light. Multiple mounting options can free up desk space and a discreet USB port allows users to charge most phones or tablets. Splitty Pro features a built-in occupancy sensor to maximize energy efficiency.

Z-BAR pendant light

Koncept's award-winning Z-Bar designs have been reinvented into a unique and customizable pendant fixture. The Z-Bar Pendant's "light bars" can connect, float and hang to suit your interior space. Each modular light bar independently rotates, allowing you to shine the light upwards for ambience, or downwards for task lighting. The Z-Bar Pendants are compatible with most dimmers, so controlling the brightness by remote control or switch is simple. Choose from the standard configurations or create your own using the dedicated web app.

With personal lighting in place, elimination or downsizing of building lighting systems is possible.

Interior Lighting (Possible 2 points)

To promote occupants' productivity, comfort and well-being by providing high-quality lighting.

All Koncept's task lighting products provide more than three lighting levels that are easily adjustable by occupants to suit their needs. Furthermore, all Koncept's task lighting products use high quality LED light sources with CRI over 80 and L70 rated lifespan over 50,000 hours. Desktop and task personal lighting also provides the opportunity to reduce overhead lighting.

Z-BAR

The Z-Bar collection broke the mold for desk and floor lamp design and introduced the world to Koncept's contemporary designs. The traditional bulb-and-shade lamp format was abandoned and the result was a flexible, streamlined design. The three-bar silhouette has become iconic in the LED lighting design industry. With several sizes to choose from, there's a Z-Bar for every need. "Best of Category" in I.D. Magazine's 2006 Annual Design Review Permanent collection at Die Neue Sammlung, Munich TIME Magazine's "Best Inventions Of The Year" 2007
