Art Studio

An expression of your personality, a measure of your taste and a sign of your hospitality, the pieces you choose to fill your home say a lot about you. NOVA Art Studio has created unique, beautiful styles that reflect the spirit of an artist, a designer and an individual. Crafted with care (and entirely by hand) from brushed aluminum, tempered glass and rich acrylic, each piece is more than functional, it's personal—an expression of our imagination that we share with you.

"From vintage inspirations to modern interpretations, NOVA's ability to bring artistry and imagination into everyday design is second-to-none."

Today, NOVA Art Studio pieces adorn the rooms of homes worldwide; a testament to artistry, exceptional design aesthetic and an unbridled sense of whimsy. From mirrors that spiral into infinity to clocks that warp time, every Art Studio design is a reminder to take life a little less seriously. It's what we like to call "the art of everyday living" and we hope it finds a way into your home.

CHRONOLOGY

The Surrealist Movement served as the inspiration behind our latest collection of timepieces. Playful proportions and imaginative touches take their cues from early 20th Century artwork, while hand-brushed metals and infinity mirrors make each piece thoroughly modern.
