

NEW. MODERN. NOW.

The Winter Collection

NOVA
OF
CALIFORNIA

Our design team finds inspiration by digging through NOVA's archives to re-imagine original designs of the past and make them relevant for today.

From the streamlined modern shapes of the 1950's, to the contemporary flame-treated steel forms in our wall art, every piece is designed, crafted and finished by hand, to ensure the highest quality, integrity and artistry.

The result is a collection filled with truly unique statement pieces that will endure.

“Our newest collection combines NOVA’s passion for classic design with a deep understanding of contemporary living.”

Daniel Edelist
CEO, NOVA of California

O NOVA *of* CALIFORNIA

Since its founding in 1923, NOVA has been at the forefront of quality, integrity and functionality in design. For more than 90 years, the brand has re-imagined elements of classic design—from mid-century to contemporary—creating an innovative, refined look that is distinctly NOVA. This collection represents the very latest from the creative minds at NOVA, defined by new forms, materials, and finishes that bring the beauty of original design to everyday living.

O NOVA *of CALIFORNIA* *Art Studio*

Fostering freedom of expression and experimentation, NOVA Art Studio is a collective of sculptors, painters and skilled metalworkers that craft original works from steel, brass, aluminum and copper. Each piece is made by hand and then finished with specialized flame and patina treatments before being signed by the artist to authenticate its status as a one-of-a-kind work of art.
