

# SALOOM

MADE IN THE USA

Peter F Saloom, Linda Saloom, and Peter B Saloom

# It's Personal

"A family business is always personal. When my mother, father, and I make decisions about Saloom Furniture it is with the understanding that we are shaping and cultivating the relationships we have with other people across the country that share our passion for design, quality, and customization. We are a small company located in the hardwood forests of central Massachusetts. Over the last three decades we have created a home here, not only for ourselves but for our craftsmen and women, and for creative freedom. Our designs come from the imagination of Peter F Saloom, my father and the founder of this company. It's no secret that his design work stands out in a market that can be painfully homogeneous at times. It's the extra experimentation we are willing to undergo that gives us this edge, the extra prototype, the final nuanced alterations. These are the values that make Saloom such a unique entity in the American furniture manufacturing industry. This is what gives us great pride."

Peter B Saloom

# Furniture Finishing is Art

A fine furniture finish begins with the choice of wood species. Maple is light in color, very fine grained and also expressive.

Color is what dresses your furniture, and is essential to your design. We offer a spectrum of fashion forward finish colors, then offer each color in 3 levels: 1) A standard stain, 2) A lightly distressed level, and 3) a heavily distressed “Heritage” level.

NB – Nantucket

Distressed Nantucket

Heritage Nantucket

Fine furniture finishing is becoming a lost art in our country. Most companies stain the wood, apply sealer, sand and apply a top coat. Many of our finishers are experts who have been developing their skills for over twenty years. They add many steps in between these basics to ensure transparency and a depth of color. These are the reasons our furniture glows.

## Wire Brushed Finishes

Some of our finish colors are offered with a “Wire Brushed” technique that creates a textured surface that adds richness and character to the table top. This technique is used with specific finish colors only, it is not available across the board with any finish color.

Wire Brushed (WB) – Nantucket

## Distressed Finishes

We use many different tools and techniques to distress your furniture to impart a very natural appearance of years of use.

### Tools

We design and build our own tools using files, chains, and nuts and bolts to add distressed marks to the furniture.

### Techniques

**Wormhole:** Some trees are attacked by little boring worms. Back in the day boards with the little holes were used in country furniture. We use a technique that mimics this detail in our distressing.

**Flyspeck:** We apply an opaque glaze in super fine little dots. You almost can't see them, but they are there, adding character to our finishes.

### Heritage Finishes

Our Heritage finish begins with a heavy level of distressing that includes: worm hole, splits, edge wear and chain distressing. Many of these finishes have multiple layers of toners, stains and glazes applied. The fine art of dry brushing, rare now in our industry, provides a final aging effect.

### What is "Hand"?

"Hand" is an old timey finisher's word. Glide the back of your fingers across our table tops. That silky feeling is called "a fine hand." "Build" is another term. It means top coat thickness. Too much and the finish distorts, too little and the finish becomes dry. We control top coat thickness to ensure "a fine, silky hand".

We bring all this attention to fine detail, beyond stain and topcoat, to every piece of furniture we make. We do this to create heirloom quality furniture.

As a final touch, all of our maple finishes are offered in a choice of two sheen levels, "Satin" for a soft, low luster look, or "Glossy" for a medium sheen that enhances the clarity of the finish.

You can see all of our finishes on display in your authorized Saloom retailer,  
or view them on our website, [www.saloom.com](http://www.saloom.com).

# Signature Tops

Signature Tops give you the opportunity to add a variety of hand applied textures and carvings to a classic, smooth table top. These unique table top surfaces enrich and add character and are offered with any of our solid maple table tops.

Panels with the Signature Top options are represented in our display materials. Note: a table top with a Distressed, Wire Brushed or Heritage finish is NOT a Signature Top.

## Hand Planed Top

Hand planing creates a rippled surface that shows tool marks and "tear out" like table tops before the era of modern woodworking machines.

## Rustic Top

Multiple lines and grooves mimic aged "split" marks and create a table top that looks naturally aged.

## Planked Top

Alternate table top planks are slightly raised and lowered, giving the look of an antique farm table, without any grooves or "crumb catchers".

## Strata Top

Strata is a great choice for transitional and contemporary dining, hand carved lines add subtle texture to the table top.

# Quality

## Saloom Quality Features and Why They Matter

### **Solid maple top**

Others compromise on the grade or use less expensive woods like birch.

### **Solid brass leaf pins**

We take quality detail to the next level, we don't use wood or plastic. They can wear out and get stuck.

### **Reciprocating slides on pedestal tables**

All of our pedestal tables feature these slides and allow for easy, one person leaf removal.

### **Self-storing leaf**

Many tables will store one leaf underneath the table, saving valuable space in the closet or under the bed.

#### **Mortise and tenon construction**

This is the favored joint type of the fine woodworker, it is very strong and long lasting.

#### **The best topcoat finish on every product**

Catalyzed conversion varnish is the best high performance coating available. It protects your furniture from many chemicals and spills. Others might use durable coatings on table tops only. We apply it to every one of our products.

#### **"Full envelope" finishing**

A critical process in which we use a full coating of sealer and top coat on the table top and the table bottom to ensure a fully sealed and balanced piece, this helps prevent warps and splits.

#### **Ball bearing drawer glides**

Smooth, easy rolling glides with a very long life.

#### **Dovetail drawers**

This interlocking joint construction is exceptionally strong due to the way the tails and pins are shaped. It makes it virtually impossible to pull the joint apart.

It just keeps on going. Look closely and run your hand over our smooth, silky table tops!

# Saloom New England

Quincy table with #14 chair in NB-Nantucket finish

Looking for sophisticated style in high quality hardwoods? The Saloom New England collection covers the spectrum, from contemporary to transitional, to country styles – all with our durable solid maple tops. All of the dining table designs are offered with multiple top shapes, sizes, edge choices, and finish colors. Mix and match from our large selection of seating, including solid wood frame chairs, fully upholstered chairs, or benches. Like Goldilocks and the Three Bears, you create a dining set that is “just right” for you!

# New Castle

Ashford table with #64 chair in Heritage Flax finish

Rich. Refined. Rustic. Traditional. These are the looks you'll find in the New Castle collection. The European influenced designs are a study in contrasts; both rugged and elegant, with thick table top edges, and sturdy pedestal and trestle base styles. The "Signature Tops" option adds an authentic aged character to the table with a hand planed, rustic, or hand planked table top. Choose your table size and finish color to create a dining set that will stand the test of time.

# Peter Francis

Serpent table with #14 chair in Walnut finish

"I had great fun designing the Peter Francis pieces because I was so free, no holds were barred. I was free to be bold and modern. And I used the best, most expressive materials, like walnut and sand cast aluminum. Peter Francis is pure modern, each piece making a sculptural statement. Linda and I have a few special things in our home that bring us simple pleasure year after year. Bring a Peter Francis piece into your home and enjoy the feeling of living with fine design."

# Skyline

Aura table with #102 chair and MBF57-WTR T buffet in Chocolate finish

Skyline is a unique proposition, it has the bold geometry most often found in contemporary design but it is rendered in a soft natural palette of materials. It offers a nod to European Contemporary and Mid-Century Modern timeless design. Whether it's a city loft, a studio apartment or any contemporary space, the soft shapes and natural textures will make your modern home a haven.

Cona table with #100 chair in Chestnut finish

# Seating

K Base table with #103 chair in Walnut finish

Surrounding your table with great seating is a breeze. Choose from our wide range of wood frame chairs, fully upholstered chairs, ply-shell bucket chairs, benches, or bar and counter height stools. Our seating options come in a range of styles to fit any setting. When our craftsmanship is combined with our best in class finish and hand-sewn upholstery what is left is a beautiful custom made chair that will last a lifetime. To further our custom options we offer Customer's Own Material for upholstered chairs and have a partnership with Sunbrella Fabrics for a great selection of high performance fabrics.

Cleo table with #118SU chair in Shadow finish

# Case Pieces

Saber Leg table with #56 chair and MWB60/MCH60 buffet and china in Redwood finish

Our buffets, credenzas, china cabinets, and consoles are made to hold everything from dinner and glassware to wine bottles and even electronics. We have doors and drawers, wine racks and shelves so everything has a place. Made with strong and precise mortise and tenon joints, stainless steel ball-bearing drawer glides, and dovetail drawer boxes, our cases are both beautiful to look at and built to stand up to years of your family's get-togethers. Available in multiple size options, in maple and walnut – we have a case piece in a style you'll love, that fits your space.
