

SALOOM

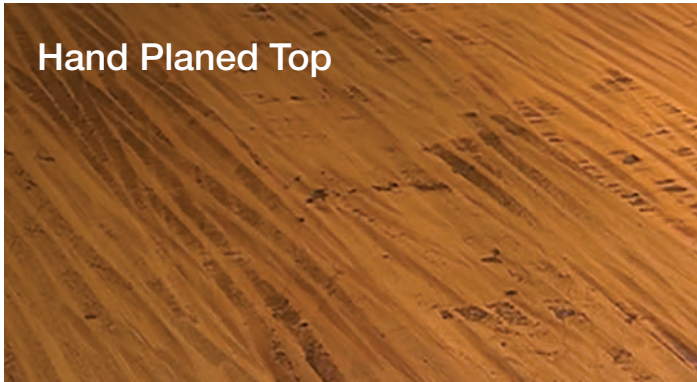

Occasional Tables

MADE IN THE USA

Specialty Tops

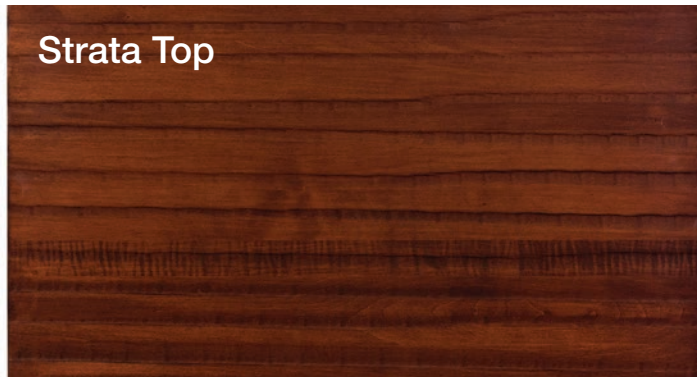

Solid maple table tops are offered with unique textures and shapes to make your table a work of art for your living room.

Hand Planed Top

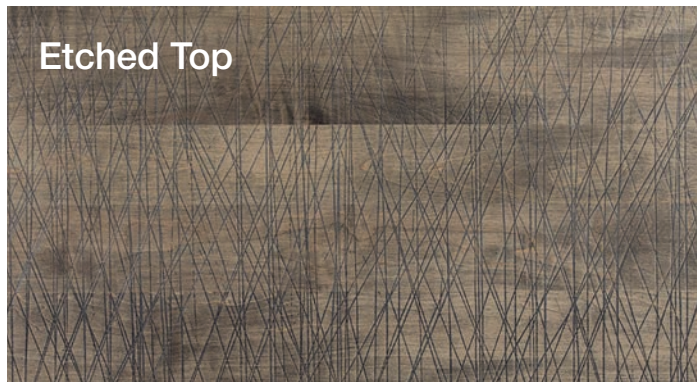

This technique captures the look of Rustic Modern style with the texture of table tops before the era of modern woodworking machines. Tops are hand planed to produce a rippled surface that shows tool marks and 'tear out'.

Strata Top

Strata is a great choice for both transitional and contemporary looks, hand carved lines add subtle texture to the table top.

Etched Top

The Etched Top was inspired by our factory floor, multiple carved lines create a unique pattern and texture.

Wave Edge

The Wave Top has a smooth wood top with a thick sculpted edge, and offers graceful, flowing movement to your table design.

Saloom Furniture offers a collection of cocktail, console, side, and end tables that is a truly unique combination of design and customization. Solid maple, metal bases, Specialty table tops, and 50 finishes provide you with the tools to create a style that's perfect for your home.
