meet the Designer

EYAL ARAD

Eyal Arad is one of the founders of Cast Classics and the award winning mastermind behind the entirety of the company's creative direction and designs. Long before the inception of Cast Classics in 1992, Arad began his career at an early age in his father's furniture store in Southern California- working in the warehouse assembling furniture and personally delivering the pieces to customers. It was there that Arad's love for every aspect of the design process was first formed and thus began to flourish; evolving and transforming as he honed his skill set through years of experience as an artist and designer.

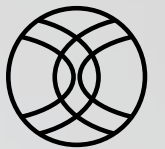

Over the last three decades, Arad has designed some of the most iconic cast aluminum collections in the world and continues to transcend this by utilizing mixed media; combining aluminum with performance woven materials and textural fabrics. Much of his design sensibility stays rooted in the tradition of ironwork and sand casting metals- two distinct areas where his work has won several Design Excellence Awards. Arad draws inspiration for his designs largely from international travels that span the five continents. From architectural movements represented throughout various historical time periods, to landscapes that contrast greatly by country and region; Arad's remarkable innovation is a reflection of his unique ability to take color, form, function and scale from a diversity of visual aspects and combine these with his own imaginative vision to create exemplary, timeless designs and collections.

As his creative palate is consistently evolving, in the past few years Arad has developed a more minimalistic approach fueled by a profound passion to delve into mid-century modern design. His most recent collections are influenced by particular elements from both classic and mid-century styles that are re-imagined with a contemporary twist. Similar to his past collections, this latest approach continues to have significant aesthetic appeal

to an eclectic array of consumers. Arad's sleek, quintessential designs offer remarkable versatility; enhancing the exterior spaces in homes of all decorative styles in every geographic location. Arad maintains his devotion to utilizing only the finest grade performance materials and handmade craftsmanship on the market, which ultimately result in a product of unparalleled quality that provides consumers with an ease of maintenance that stands the test of time.

Perhaps the words that best encapsulate what drives this designer's brilliance come from the man himself. Arad explains, "I love creating and designing outdoor spaces that provide the basis for some of life's most beautiful and cherished moments. My paramount goal when designing every collection is to construct an environment that welcomes a spectrum of occasions; from family gatherings and entertaining friends, to those quiet moments of pure relaxation."

As a firm believer in the importance of a designer's responsibility to continue to progress and transform his craft, Arad never stops exploring the globe in search of inspiration for future collections and discovering the world's most superior materials, those that he feels are necessary to building exceptional designs worthy of bearing the eponymous Cast Classics name.

CAST CLASSICS

ABOUT US

For the past 20+ years, Cast Classics has earned a reputation for unparalleled quality and sophisticated styling. As one of the outdoor furniture industry's leading manufacturers of luxury furnishings, Cast Classics has been recognized with numerous design excellence awards.

The Cast Classics 2020 Collection was designed to compliment environments of grand style, making it the furniture of choice for homes of distinction and luxury resorts around the world. Like the environments they are designed to adorn, the pieces in the 2019 Collection are highly architectural. On close examination, you will find that they are finely sculpted, elegantly designed and scaled to be as luxuriously comfortable as they are beautiful.

Only the finest materials are used in the production of Cast Classics furniture. Our exclusive aluminum alloy is formulated to create heirloom quality pieces that will last for generations. Our fashion forward finishes continue to be trendsetting both in appearance and durability.

Unique luxury materials are used in table top treatments to create surfaces that are both beautiful and easy to maintain. Our opulently tailored cushions are crafted using the highest quality fabrics available and can be trimmed with piping, cording and tassels to create a highly sophisticated look. We invite you to explore the following pages and experience the beautiful style, quality and comfort of the Cast Classics 2019 Collection.

ATHLETION

ATHERTON

The Atherton collection is a juxtaposition of transitional design interpreted using performance materials. No-rust Aluminum frames with state of the art outdoor fabrics and clean simple lines will add style and sophistication to any outdoor entertaining area. Large or small, this modular collection can be utilized in any space. Built to contract specification, Atherton will stand up to the test of time and look beautiful for years to come.

MODERN COCONUT

CONTINUUM

CONTINUM

The CONTINUUM collection was inspired by the simplicity of Art-Deco designs. A simple, elegant, cast aluminum frame with straight tapering lines is coated in polyester powder to create a frame that will look great for years to come. The sling is designed to look as if it is suspended in air with a hidden sling railing. Continuum is comfortably proportioned, is low to the ground and offers dining and deep seating pieces as well as a stacking chaise. This collection is inventoried domestically for our quick-ship program.

CORONADO

CORONADO

The frame of the CORONADO collection is hand crafted from durable aluminum extrusions while the seating surface is constructed with outdoor performance fabric. The slender silhouette of this collection is made possible by our unique side mounted “hidden” sling railing. Featuring Dining and Seating, the Coronado collection is virtually maintenance free and stackable making it perfect for both commercial and residential installations.

FOR TUNNA

FORTUNA

FOR TUNA

The epitome of Mid-Century Modern design elements, with legs that flare out and taper as they get closer to the ground, lends the FORTUNA collection an elegant stance. High grade aluminum and hand woven synthetic wicker make this collection very comfortable to sit in even without cushions. Seat buckets are ergonomically designed to fit the human form. This collection is made of materials that are easy to clean and maintain and do not require any cushioning. The perfect combination of classic elegant design and performance materials result in a comfortable, easy to maintain sophisticated style.

WONTE CRISTO

MONTE CRISTO

Introduced over 25 years ago, the MONTE CRISTO collection has become an iconic part of our design portfolio as well as the outdoor industry at large. Inspired by the logo on the “Monte Cristo” cigar, the back of the chair is meticulously cast to be as comfortable as it is beautiful. A simple, Neo-Classic frame with an understated ornate back made this Transitional collection an instant classic over a quarter century ago and it still reigns today.

NOTES

NOTIONS

The SUTTON collection was inspired by a Danish teak & cane chair introduced in 1953; which immediately became an iconic staple in Danish Mid-Century Modern design. The Sutton collection takes the look and feel of this indoor chair and re-interprets it for outdoors using aluminum frames, instead of wood, and synthetic hand woven wicker instead of natural cane. A double tapered back leg flares out, meeting the arm at the sweep of the curve, which then joins the double tapered front leg, ultimately hitting the floor at a 90 degree angle to create a very curvy and prominent stance. Synthetic performance materials take this beautiful classic design, once relegated to the indoors, into the “real” (outdoor) world.
