

WHAT IS ECOSMART FIRE?

ULTIMATE DESIGN FLEXIBILITY

An EcoSmart Fire is a bespoke piece of industrially designed fire furniture that exudes warmth, burns cleanly, and defines a space without dominating it. From luxury resorts to commercial showrooms and residential settings, EcoSmart is embraced by the world's leading architects, designers, developers, landscapers – and style savvy homeowners.

FUELLED BY e-NRG BIOETHANOL BURNS CLEAN NO SOOT NO SMOKE NO ASH

INDOOR & OUTDOOR MODELS

OVER 90% EFFICIENCY NO GAS, NO FLUE, NO ELECTRICITY

QUICK & EASY INSTALLATION

WHY CHOOSE ECOSMART FIRE?

Independently certified safety features; endorsed by design, construction and landscape professionals; free from utility or flue restrictions; loved by homeowners; kind to the environment – there are countless reasons why choosing an EcoSmart Fire is the smartest fireplace option. Architecturally designed to enhance contemporary living and commercially spaces, EcoSmart Fire adds warmth and ambiance with a clean-burning, flickering flame that is free from soot, smoke or ash. Now that's what we call EcoSmart.

Ultimate Fire Design Flexibility

With the uniquely versatile EcoSmart Fire, you have the building block to help bring your design to life.

Because bioethanol is clean burning, EcoSmart Fire models do not need a chimney or a flue, or a utility connection - offering the ultimate in fire design simplicity and flexibility.

Committed to Safety

Researched and developed by our in-house design team, tested by independent facilities, and fabricated according to our own exacting standards - the EcoSmart Fire is an expression of our commitment to creating the best. The combination of rigorous testing, independent certification and leading safety features is why the EcoSmart Fire gives you priceless peace of mind.

Eco-friendly

EcoSmart Fire uses the cleanest. most efficient fuel source on the market: bioethanol. Bioethanol is an eco-friendly fuel that burns clean and has a minimal carbon footprint. The fact that no flue or chimney is needed means most of the heat generated by an EcoSmart Fire remains in the room.

e-nrg.com

Recognised World Wide

It's one thing for us to believe in our own product but guite another when the world's leading architects, designers and landscapers embrace it.

EcoSmart Fire doesn't just add to a space, it defines it. When quality, style, reliability and safety are paramount, EcoSmart Fire is the fireplace of choice for connoisseurs of style and substance.

Review our extensive gallery of installations on our website ecosmartfire.com

WE HAVE YOUR FIRE DESIGN SOLUTION

Whether you're creating a custom fireplace feature, renovating an existing hearth, or looking for an out-of-the-box system, we have a stylish solution to suit your needs. The EcoSmart Fire collection of bioethanol fireplaces is incredibly versatile and gives you absolute installation flexibility to create exactly what you want, without any hassles or restrictions.

From hand crafted freestanding pieces of fire furniture, to built-in custom designs for bespoke settings - EcoSmart Fire offers a complete collection of versatile and award-winning fireplace solutions that make having an open flame incredibly easy, whatever the setting, at the same time as being good for the environment.

BUILT-IN

Elegantly designed and robustly constructed, EcoSmart's bespoke built-in fireplaces add a dramatic showpiece to residential and commercial premises.

Offering optimum heat output, flame enhancement and safety, their high quality, stainless steel and toughened glass construction complements a wide range of building materials and finishes.

Free from traditional installation restrictions such as plumbing, roof work, and gas or electricity connections, they provide unlimited design options for builders, architects, interior designers and homeowners.

FREESTANDING

Freedom, flexibility and eco-friendly functionality – EcoSmart's freestanding bioethanol fireplaces add warmth, style and ambiance to indoor living and outdoor entertaining spaces.

Cleverly refashioning the traditional fireplace concept into a piece of flexible fire furniture means that you can now enjoy the simple pleasures of an open fire whenever and wherever you want it.

From classic designs to see-through centrepieces, this collection of freestanding fireplaces is defined by its streamlined construction, sophisticated ignition system and sustainable fuel source. Boasting minimalist chic and maximum functionality, EcoSmart's fire solutions create an architectural focal point even when they are not in use.

BUILT-IN

Bioethanol Burners

The core of all of our fireplaces, offering the ultimate in design and installation flexibility.

The residential and commercial creative design possibilities are endless when you use a flueless, vent-free ethanol burner.

Fireplace Inserts

Elegantly designed and robustly constructed, our fireplace inserts are available in a range of styles and finishes. Choose from our Premium Single Sided or Double Sided Fireplaces, our Curved Fireplaces or six versatile styles in our Flex Fireplace Series.

Our fireplaces do not require any flashing, roof work or plumbing, which significantly reduces installation costs and time. Installed with ease, these fireplaces can be integrated within cabinetry or a fireplace setting, EcoSmart fireplaces offer the perfect blend of functionality and design aesthetics.

Grate Inserts

Transform traditional wood hearths into contemporary, eco-friendly ethanol fires - without the fuss.

FREESTANDING

Centrepieces

Freestanding pieces of fire furniture that bring versatility to indoor and outdoor living - and create an instant talking point. Available in a variety of shapes and sizes, they blend seamlessly as a decorative accent or a functional piece of fire furniture.

Wall Features

Enrich the contemporary aesthetics of today's residential and commercial environments with a relocatable piece of fire furniture. With no installation or building works required, simply unpack, put the fireplace into position, and off you go.

ACCESSORIES

Our clean and simple fireplace screens, fixing systems, top trays, fireplace covers and accessories have been designed to improve the safety of operating an open fireplace without compromising the view to the flame.

Midorinokaze Resort Kitayuzawa, Japan Model: XL900

The Noguchi Collection Relaxation Library at the Midorinokaze Resort features ultra-comfortable sofas arranged to put your mind and body at ease and while EcoSmart's mesmerising, flickering flame creates an enticing atmosphere.

"The fireplace is the center element of the lounge, creating a focal point that divides the seating groups. It's the feature that can be seen from all areas of the space and enhances the warmth of the walnut panelled room."

MEAGHAN WREN, MEYER DAVIS STUDIO

AKA Hotel, New York USA Model: XL700

The intimate a lounge artfully complements the traditional warmth of New York's AKA Sutton Place with a relaxing yet of-the-moment ambiance. Numerous cozy seating areas, a spectacular marble bar and open fireplace created with an XL Burner completes the stylish scene.

Floreat Residence, Perth Australia Model: XL900 x 2

Pairing multiple burners creates an elongated flame that provides a visual counterbalance to particularly large spaces and rooms with high ceilings.

Churchlands Residence, Perth Australia Model: XL900

At the centre of this custom built home is a fire design that inspires and encourages family gathering without a TV in sight.

"The fire needed to offer both visual and physical comfort so patr VICTOR CHEUNG. ARCHITECT

Hospitality creates an ideal environment for guests, and accounts for how the food, drink and aesthetics shape mood. In this case, EcoSmart's atmospheric fire feature further enhances the restaurant's reputation as a "gathering place that celebrates the region's finest."

Junction Moama, Victoria Australia

Model: XL500 x 3

"We also look at longevity and durability of the product. I started looking at all the specifications for EcoSmart and that formed

Hillside Residence, Beverly Hills USA Model: XL900 x 3

Beach House Design and Development was engaged to construct a combination fireplace and AV cabinet within a space made up of 12" poured-inplace concrete walls and a rooftop pool above – with absolutely no way to vent the fireplace.

Enter EcoSmart Fire.

Toca Madera, USA Model: XS340 x 2

Located in a Los Angeles restaurant "conceived around a communal dining philosophy", EcoSmart's twin bioethanol burners create a captivating see-through effect between eating and entertainment spaces. Enhancing Hollywood's latest hotspot is a series of flickering flames that work well with the earthy colour tones.

St Regis Hotel, Istanbul Turkey Model: XL500 x 2 Opposite Page: XL900 x 3

Istanbul's modernist Art Deco-influenced St. Regis uses EcoSmart's stunning fire feature in its Petit "O" Bar (above), which offers a formal setup during the day before transforming into a relaxed lounge area when the sun goes down.

Located next door is the hotel lobby (right), which greets guests with a wall of flickering flame courtesy of three XL900 Burners. EcoSmart's longest linear burner creates a stunning horizontal piece of architecture when grouped for maximum effect.

"The burners take the piece from ordinary to extraordinary." ROSIE BLAY, LIQUID DESIGN

Keio Plaza Hotel, Japan Model: XL900

This Japanese hotel is known for its architectural design, streamlined facilities and world-class style – the same qualities that can be found in EcoSmart's XL900 fire feature.

Hippo Creek African Grill, Perth Australia Model: XS340 x 3

Cleverly tailored EcoSmart Burners are helping set the scene for a vibrant new African grill themed restaurant in Perth.

"Nothing looks or performs as well as EcoSmart. Having a flue-less fireplace also meant a huge amount of savings on space and construction expense. We could place the fireplace in an area that would have been impossible to have a fireplace in if we were to use traditional fireplaces that need

MARCO DIMACCIO, PRINCIPLE DESIGNER AT PUNCHOUSE DESIGN GROUP

to be vented."

Private Residence, Santa Monica, California USA Model: XL900 x 2

The presenter of US documentary show 'Our America' had clear views in the design of her new home – and it has now become the first-ever energy neutral residence in Santa Monica, California.

The Brindabella, Perth Australia Model: XL900

This outdoor entertaining area designed by Webb & Brown-Neaves is indicative of their commitment to building every home as if it were their own.

Private Client, Brisbane Australia Model: XL900

An expansive, exposed terrace of a Brisbane high-rise apartment has been transformed into a stunning, cosy environment with different alfresco living 'zones' complete with an open fire. Photo: Kylie Hood Photography

"It really is the ideal choice when

Paramount Hotel, New York USA Model: XL900 x 3

The lobby centrepiece in New York's Paramount Hotel, which is located in the theatre district, could be described as "dramatic" courtesy of three EcoSmart XL Burners and polished steel sheets.
Photo: Michel Arnaud

"I put forward the idea of the EcoSmart Fire to bring more warmth and character into the room. I believe fire is engaging and inviting" LEE HARDCASTLE. **ENIGMA INTERIORS**

Enigma Interiors, Australia Model: XL900

EcoSmart Fire has been cleverly used to create some distinctive kitchen designs – and this one in Queensland, with its emphasis on quality fittings and appliances, is no exception.

Private Residence, UK Model: XL700

Purpose-designed baffle inserts allow homeowners to regulate and stabilise the flame while simultaneously increasing fuel efficiency.

Private Residence, UK Model: XL700

EcoSmart Fire's elongated flame creates an instant focal – and talking – point for living spaces.

City Skyline Austin Texas USA Model: XL900 x 2

Two XL Burners set within a sandstone wall perfectly complement the spaciousness of the seamless indoor/ outdoor living areas in this Texan home.

WHY e-NRG FUEL?

BEST FLAME

CLEAN BURNING

LOWEST ODOUR LONGEST BURN TIME

ORDER ONLINE

Achieving a beautiful, vibrant flame in your ethanol fireplace is easy when you use the right fuel.

Bioethanol is pure alcohol. The combustion of bioethanol is clean, which makes it an efficient and effective source of heat because there is no soot, ash or harmful emissions that need to be extracted through a flue - meaning all the heat stays in your room.

Specifically packaged and labelled for use in liquid ethanol fireplaces, e-NRG Bioethanol is formulated with the perfect blend of ingredients to give you a brilliant orange flame in your flue-less fireplace.

Fire up your bioethanol fire with the highest quality, cleanest burning bioethanol available, visit e-NRG.com

Clean Burning

e-NRG produces no harmful emissions - just heat, steam and carbon dioxide, which is reabsorbed by plants.

Fast Refilling e-NRG bottles pour 8 times faster than the competition.

Packaged to Perform

e-NRG offers the safest and most efficient fueling process on the market.

Flame Arrester

The bottles are fitted with a flame arrester for safe refilling.

e-NRG is supported by an operational procedure to ensure it's used in the safest way.

UV RESISTANT

CUSTOM FINISH

DURABLE SURFACE

fluid

LIGHTWEIGHT

EcoSmart fire features are synonymous with quality, substance and enduring style and now those same qualities can be applied to our extensive concrete collection.

Incredibly strong yet relatively lightweight, EcoSmart's concrete products incorporate revolutionary Fluid™ Concrete Technology, which is eight times the tensile strength of common Portland concrete. Fluid features a stain and impact-resistant barrier that protects the concrete from environmental weathering – even under extreme conditions and long UV exposure.

Fluid's customised curing process allows each EcoSmart piece to rest and set in quality controlled conditions, producing a consistently beautiful indoor and outdoor collection of designer concrete that last longer than traditional composites.
