

HUBBARDTON FORGE. 2024

Celebrating 50 Years

Dear Valued Customers,

As our Hubbardton Forge team joyfully celebrates the momentous occasion of our 50th year in business, we reflect on the incredible journey that has brought us to this milestone. It is with immense gratitude and sincere appreciation that we extend our heartfelt thanks to you, our cherished customers.

Your trust and loyalty have played a pivotal role in our success. Your unwavering support has been the cornerstone of our achievements, and we are honored to have had the privilege of serving you throughout these remarkable years.

In an ever-evolving business landscape, your feedback and collaboration have been invaluable, propelling us to continually innovate and enhance the quality of our products. Your satisfaction remains our top priority, and we are committed to exceeding your expectations in the years to come.

As we commemorate this golden anniversary, we are reminded that our journey would not have been possible without the relationships we have built with each of you. Your patronage has been the driving force behind our growth and prosperity, and for that, we are truly grateful.

Once again, thank you for being an integral part of our journey. We look forward to many more years of serving you and fostering meaningful connections.

Here's to 50 years of shared successes, lasting partnerships, and a bright future ahead!

Warm regards,
Maria L. Mullen
CEO

NEW Multi-Application Design

Placing products within spaces isn't always cut and dry. Many of our designs work well in multiple settings. For example, most of our pendants come with adjustable wire lengths and pipe options, and look great installed close to the ceiling in semi-flush applications. Also, several of our sconces double as flush and semi-flush mounts. We have introduced this Multi-Application Design icon to point out which products we think would look great outside of the box. Let your creativity fly—the possibilities are endless!

Example:

Many of our pendants are offered with stem kits featuring a variety of lengths that can be assembled to the end user's needs — from over a table to close to the ceiling as a semi-flush. Note: wire measurement is calculated from where the first stem attaches to the body of the fixture.

PARTNERSHIPS

We work with local partners and artisans who provide many of the components used in making our products. This allows us a level of quality that is unparalleled. Our partners work with us to develop the exact pieces, whether it be LED technology or chiseled slate, maple wood or handcrafted leather, handblown glass or fabric shades. Involving our local partners throughout the process ensures the best possible end product. Local partnerships also allow us to ensure reliability in our deliveries, helping you keep your promises to clients.

COASTAL OUTDOOR FINISHES

Hubbardton Forge offers some of the most robust, environmentally-friendly finishes available for exterior lighting fixtures, and continuously works to improve durability with new formulations that are rigorously tested.

The American Architectural Manufacturers Association, who sets the standards for coating performance on architectural applications, has recently designated all of our **Coastal Outdoor Finishes as AAMA 2604-certified, meeting the highest standard in durable, weather resistant finishes available**. They are corrosion-resistant and color-fast, with significant protection against harmful UV rays. These coatings deliver exceptional hardness and scratch resistance for enhanced performance in seacoast environments. AAMA 2604-rated finishes, also known as "Super Durable Polyester powders", are the same quality and standard that is used on aluminum-clad buildings. Why is this important? So that your exterior lighting fixtures remain not just beautiful, but protected, for years to come. Need LEED credits? These powder coat finishes emit zero-VOCs and can contribute toward your LEED certification, according to the US Green Building Council.

We offer a Lifetime Limited Warranty on *ALL* of our Coastal Outdoor Finishes, unless you are 10 miles or less from a seacoast, in which case we offer a 5-year warranty.

CUSTOMS

We Can Do That!

With a dedicated, in-house Customs Team, Hubbardton Forge is able to work directly with you to provide the right lighting solution for your needs. Designers, engineers, prototype & tooling, manufacturing...it's all under one roof in Castleton, Vermont. What does that mean for you? We can quickly turn around a request with unsurpassed quality control and reliable lead times. And you can be sure that you'll receive a high-quality final product, with your own personal stamp on it. Inspired by one of our existing products, but need it longer, shorter, wider, taller? Talk with us. We're the experts at modifying a design to give you the customization that you require. Design through delivery, we offer exceptional service and a streamlined process—ensuring your made-to-order piece is on-time and on-budget.

CUSTOM FINISHES

If you love a fixture you see, but need a specific finish color for your palette, just use the RAL color chart, and we can create lighting fixtures to match.

CUSTOM MATERIALS

Metal, leather, glass, wood, slate, stone and various other materials can customize your creation.

Systems

Modular Scalable Lighting

Longer, shorter, wider...We can do that!
The customizable nature of the Abacus is endless. Either side of a headboard, a 30' space divider with 15' ceilings, above a 10' long island, or over a dining table...the Abacus is as versatile as it gets. Custom options are available to accommodate specific applications.

LED TECHNOLOGY

Glass globes are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Working with local Vermont artisans, we can create custom colors and shapes to suit any design needs.

ADJUSTABLE

True to its namesake, the Abacus moves up and down its cable "rails" by virtue of tiny grippers on each side that, when squeezed, free the globe to slide and stop exactly where you want to position it.

GLASS COLOR SELECTION

Glass globes are offered in two standard colors (Opal or Cool Grey). A variety of hand-blown, artisanal glass globes are additionally available as custom options for your Abacus.

Multi-Port Systems

A collection of highly-customizable multi-port designs feature cascading light and are suited to a variety of spaces. From dramatic stairwells to foyers and reception areas, to dining and more, these multi-ports feature pendants that may be individually aligned or staggered at desired lengths to customize the design. With canopies that can easily be raised or lowered via cables, installation time is significantly reduced. Easy access to electrical components make these pendants fully field-adjustable. All Hubbardton Forge products are designed, engineered, manufactured and shipped from under-one-roof in Castleton, Vermont.

WHAT SETS APART OUR MULTI-PORTS?

- **Adjustability**
- **Ease of Installation**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **Highly-Customizable**
- **11 Standard Interior Finishes**
- **Handmade, One-at-a-Time by Vermont Artisans**
- **Short Lead Time: 3-4 weeks for Standard Products**

Light-Guide Systems

It began with the design of our Zephyr Pendant, in search of the ability to have light be an integral part of the design itself...to capture the “fluidity” of light.

Working with local, Vermont partners in LED technologies and laser engraving, we developed LED Light-guide systems with proprietary, etched patterns in acrylic that draw the light from end to end. Light travels in a straight line until something refracts, reflects or bends the light through the acrylic, guiding it from LEDs at the end of the form until it escapes any of the thousands of laser-etched points in a proprietary precision matrix on its surface. With our LED light-guides, there is an even distribution of light, vs the “hot spots” often associated with classic LED diodes.

Today, in addition to several free-flowing designs like the Zephyr and Mobius, we offer Linear, Circular and Sconce Light-Guide Platforms for a variety of products. Light-guide platforms may also be customized in length, width and shape to suit custom projects.

All Hubbardton Forge products are handmade, one-at-a-time by Vermont artisans.

WHAT MAKES OUR LED LIGHT-GUIDES UNIQUE?

- **Ease of Installation**
- **Even Light Distribution**
- **Locally-sourced LEDs**
- **Accessible Electrical Components**
- **Fully Field-Adjustable**
- **LED component can be easily replaced, if needed**
- **Customizable**
- **11 Standard Interior Finishes**
- **Short Lead Time: 3-4 weeks for Standard Products**

Exclusive Bulb Design — Matte Frosted White, dimmable LED G bulbs. Replacements only available from HF Customer Service, call 888.826.4766.

Soiva is a third generation, high-quality glassworks company, proudly carrying on a tradition incorporating their inimitable know-how—the foundation of excellence in Venetian glass art for over 60 years. Each phase of development is conducted exclusively within Soiva—from design and hot production to creation of the moulds, through the cutting and polishing processes. Each piece of Soiva’s unique Venetian glass is exquisite.

ART + ALCHEMY

by HUBBARDTON FORGE

ärt + **alkēmē**
the expression or application of human creative skill and imagination + the ancient process of transforming essential base metal into gold

Art + Alchemy designs are both sculptural and distinctive. They are created in our workroom, a collaborative space where designers and engineers come together. From concept through development and fabrication, this is a space where we throw out the book and think without restrictions. It is a place to let the imagination take us on journeys to create pieces that push the boundaries.

Once the design concept is proven, manufacturing the product using custom tooling proceeds. A choice of 11 standard finishes are available; or we can custom-match any RAL color for you. And, with all of our Prototype & Tooling done on-premise, our team can work with you to customize dimensions and aspects of any product in our Art + Alchemy collection to suit a specific project.

SIERRA PATINA COPPER

This unique finish ranges in from fiery tangerine to bronze greens. Any two sconces will complement, but not exactly match each other. No two pieces are alike.
