DISCOVER THE 'MADE TO INSPIRE' WORLD OF JENSEN OUTDOOR.

With a story spanning more than a quarter-century, Jensen Outdoor brings the world's highest-quality, sustainable wood furniture to your outdoors. We craft our furniture to inspire with excitingly new, yet pleasingly familiar offerings underpinned by ethical sourcing, unparalleled design, and heirloom-durability.

How Jensen Outdoor Crafts the World's Highest-Quality, Sustainable Wood Furniture:

Ipe & Teak: The Heartwood of Our Frames These two titans of outdoor performance bring unique, yet similar virtues to the Jensen Outdoor line. The durability of Ipe comes from its density; taking over 100 years of slow growth to achieve maturity. Teak, with a high natural oil content, withstands outdoor weather conditions with superb stability. Both hardwoods have been the choice of top designers for outdoor furniture, flooring, and decking for more than a century.

Inspired Design We believe in refining the rare to fit your life. Our furniture is built to the highest standard for home, design, and contract environments with a broad selection of traditional to modern styles made to inspire. No matter your outdoor space, Jensen's award-winning designs cater to your dining, lounging, and bar needs.

Sustainable Sourcing 100% of the timber Jensen has harvested is Forest Stewardship Council® (FSC®) certified to ensure the long-term well-being of wildlife, dry tropical forests, and the people who depend on them. Small footprint harvesting techniques protect over two million acres of forest in Bolivia alone, ensuring we manufacture with only of the stable heartwood portion of trees that have grown for more than a century, allowing for new forest growth.

Midcentury, Remastered in Teak

The Soleo Lounge Chair reinterprets classic midcentury style with a modern outdoor sensibility, blending FSC®-Certified teak with expertly woven performance materials.

Designed for lasting comfort and performance outdoors, the chair's sculptural form blends resilience with refined detail. The curved back and generous armrests invite relaxation, supported by a marine-grade plywood insert that enhances both ergonomics and durability. Deep, multi-layer cushions provide plush comfort, while a curated selection of Sunbrella® or Ultraleather® performance fabrics allows for customization with confidence in weather resistance, longevity, and effortless style.

About Jensen Outdoor

Our administration, warehouse, and cushion manufacturing are located in Sandston, Virginia. The Ipe timber factory is located in Santa Cruz, Bolivia. Woven material production is located in Ho Chi Minh, Vietnam. Teak products are expertly crafted in Phu Yen Province, Vietnam. Jensen Outdoor supplies luxury wood furniture to the North American market.

OUR COMMITMENT TO SUSTAINABLE FURNITURE

Jensen Outdoor maintains over two million acres of FSC®-Certified, pristine dry-tropical forest in Eastern Bolivia (FSC-C003669).

Since 1994, Jensen Outdoor has been a leader in the outdoor furniture industry by receiving one of the first and annually re-certified accreditations from the Forest Stewardship Council® (FSC®). This sustainable forest management provides protection for more than two million acres of Bolivian forests alone.

Renowned as the gold standard in forestry certification, FSC® has established strict environmental and social standards for responsible forest management and harvesting practices, including the Chain of Custody (COC) certification for forestry operations that track wood back to the harvest area where the timber fell to when it arrives in our Sandston, Virginia warehouse as furniture. FSC® only certifies organizations that meet their certification requirements.

Today, Jensen Outdoor's furniture exclusively features FSC®-certified timbers, preserving millions of acres of dry tropical forests, along with the welfare of forest workers and their families, for generations to come.

The mark of
responsible forestry

Impervious Ipe Wood

Durability Through Density

DEEP CHOCOLATE-BROWN FINISH

Ipe, pronounced 'EE-Pay', is a Bolivian hard-wood prized for durability through density; taking over 100 years to achieve maturity.

- **Performance:** Extremely dense, Ipe is naturally heirloom durable in outdoor uses.
- **Colorway:** Deep chocolate-brown
- **Finish:** Penofin® Verde stain
- **Weathering:** Ages to a silver patina
- **Care:** Easy to restore to 'as new' finish
- **Sustainability:** 100% FSC®-certified

Timeless Teak Wood

Light and Strong

BRIGHT GOLDEN-YELLOW FINISH

Teak, sustainably farmed in Brazil and Costa Rica, has a high natural oil content, withstanding outdoor weather with superb stability.

- **Performance:** Light, strong, and full of oil that naturally repels moisture outdoors.
- **Colorway:** Bright golden-yellow
- **Finish:** Natural oil from the wood itself
- **Weathering:** Ages to a silver patina
- **Care:** Easy to care for
- **Sustainability:** 100% FSC®-certified

The stain applied to Ipe and the oil inherent in teak may leave a faint imprint on the back of cushions that rest on wood frames. Our cushions are designed for a perfect fit in a single orientation, meaning no transfer marks will be visible and can be treated to soften the appearance.

DESIGNS MADE TO INSPIRE

Jensen Outdoor strives to find design thinking that's 'Outside of Ordinary'.

When we begin the work of designing a new furniture collection, there is a collaborative process that connects the forestry operations in Bolivia to our design teams in the United States and Europe. What excitingly new, yet pleasingly familiar idea can we bring to the outdoor market to best accentuate the striking beauty of our sustainable materials? Over the years, our team has continued to sustainably innovate our designs and craftsmanship to meet with an ever-changing need.

Every Jensen Outdoor item is inspired by nature, honed to perfection by the pens of award-winning designers, and tested with our Virginia-based leadership team to ensure that you can feel as comfortable sitting in a Jensen Outdoor chair as you can feel a sense of pride while admiring it through your kitchen window.

Once Jensen Outdoor has determined the inspiration of our next collection, we engage with the top award-winning European and North American designers who specialize in outdoor and wood furniture to further hone our furniture into the excitingly new, yet pleasingly familiar designs that make your patio shine.

From pen to wood, our team of expert craftsmen, sustainably located near the source of our materials in Bolivia, bring these designs to life with rigorous rounds of testing and revision to ensure the structural stability and design aesthetics are just right.

Woven Fabric **Sunbrella®**

CUSHIONS, PILLOWS

For decades, Sunbrella® has been the woven fabric of choice for Jensen Outdoor, offering the luxury of carefree comfort and distinctive style in any environment. Each 100% solution-dyed acrylic fabric is designed for exceptional, colorfast, performance whether indoors, or out.

Animal-Free **Ultraleather®**

CUSHIONS, PILLOWS

Enjoy carefree outdoor living with premium, waterproof Ultraleather® performance vinyl fabrics with the look and feel of genuine leather, covering multi-layered performance cushions resting upon a powder-coated aluminum base insert, all secured to a sturdy frame crafted from 100% FSC®-certified Ipe timber.

Woven **Solara Fiber**

SURFACES, SEATING BASKETS

Nature-safe woven Solara Fiber is perfectly suited to outdoor use through superior resilience, indelible color fastness, and stylistic allure. Expertly handwoven around commercial-grade powder coated aluminum frames allowing the fiber to ergonomically conform to your shape.

IPE WOOD

Ipe ages to an elegant silver patina over time and may be restored to an 'as new' finish at any time.

Ipe (pronounced "EE-pay") is one of the densest premium hardwoods in the world. Many notable buildings and bridges are made of Ipe timber, including the Solferino Bridge in Paris, the Atlantic City (NJ) Boardwalk, as well as many New York City park benches.

Ipe trees are at least 100 years old when they are harvested from the forests of Eastern Bolivia. The environment of tropical dry forests causes trees to grow slowly, which contributes to their strength, density, and high-wear durability. The advanced age and large diameter of the trees allow Jensen to produce furniture with 100% solid heartwood. The heartwood portion of the tree is structurally stable and naturally resists swelling and contraction caused by seasonal changes in outdoor environments.

A strikingly beautiful chocolate brown timber when new, Ipe begins the process of oxidization when left outdoors and ages gracefully to an elegant silver patina after six to twelve months outside in the sunshine and moisture. While all wood oxidizes to a silver patina if left to weather naturally, Ipe is one of the rare timbers that can be restored to its original color at any time simply by cleaning and applying Penofin Verde, a specialized oil finish available from Jensen Outdoor.

The Paris Solferino Bridge's walkway is made of Ipe wood.

Stages of Ipe Finish:

New Ipe

Weathered

FINGER JOINT

A finger joint, or comb joint, is a joint made by cutting a set of complementary, interlocking profiles in two pieces of wood, which are then glued. The cross-section of the joint resembles the interlocking of fingers between two hands, hence the name "finger joint". The sides of each profile increases the surface area for gluing, resulting in a strong bond.

BOX JOINT

A box joint is made by cutting a set of complementary, interlocking profiles in two pieces of wood, which are then joined and glued. The glued box joint has a high glued surface area resulting in a strong bond.

TURNED WOOD

Turned wood, often a furniture leg or foot, is created by rotating a wood dowel on a lathe. With Ipe and teak wood this creates a unique look and smooth-as-glass finish.

KILN DRIED HEARTWOOD

Jensen Outdoor's wood furniture is made from the heart of the trees that are harvested. The heartwood portion of the tree is the most dimensionally stable and significantly greater portion of slow-growing, century-old trees.

Our timber is carefully kiln-dried for periods ranging from four to eight weeks to reduce the moisture content to 12%, which is perfectly suited to allow our furniture's wood joinery to grow more stable when exposed to higher levels of humidity outdoors.

TEAK WOOD

The high natural oil content of FSC®-certified teak withstands outdoor weather conditions with superb stability.

Farm-raised for 50 years until mature in well-managed plantations in South America, teak is one of the most sought after timbers for high end furniture production. With its high natural oil content, teak withstands extreme weather conditions and is extremely stable once properly seasoned by kiln drying. The teak we select is symmetrical in shape with limited surface defects.

Teak furniture arrives as a brilliant yellow and is particularly sought after for the elegance of the soft silver-tone finish that it weathers to over time.

Designed for service from preparation through presentation, the Foundations Sage Serving Buffet pairs a Teak or Ipe base with a quartz stone top in Silica or Shadow colorways.

Seth Alguire
High Point, USA

MIX, FORTE, JETT

A graduate of Kendall College of Art and Design with a Bachelor of Fine Arts in Industrial Design, Seth Alguire lives his passion for contemporary solutions to age-old design problems in High Point, North Carolina.

Chris & Jon Panichella
Carlsbad, USA

SKY, INNOVA

Design duo, Chris & Jon Panichella approach Industrial Design through authentic collaborations between the furniture and the user. Since 2006, Achella Design has crafted fine furniture elegantly fitted to the end user's needs.

Alan Morley
Brighton, England

SORRENTO, DANA

Morley began his career as a furniture draughtsman and cabinet maker before launching his contemporary design business in 1983. Alan is the resident designer at Jensen Outdoor's sister company, Alexander Rose.

WOVEN SOLARA FIBER

Nature-safe, woven Solara Fiber has superior resilience, indelible color fastness, flexibility and stylistic allure.

Made of high-density polyethylene, Solara Fiber is completely colored throughout, smudge-proof, and resistant to the effects of significant temperature variations. How significant? Jensen Outdoor fibers are specifically designed and engineered for outdoor use; insensitive to temperature differences ranging from -50 to +150 degrees Fahrenheit.

Jensen Outdoor fibers resist fading, even if exposed to extreme weather conditions during summer and winter. The fiber has been proven in laboratory tests to withstand continuous UV exposure for 3 years, far beyond the experience your furniture will have during the course of normal use.

To achieve the distinctive woven patterns featured in Jensen Outdoor's collections, each frame is expertly handwoven around commercial-grade, powder-coated aluminum frames allowing the fiber to ergonomically conform to your shape, providing supreme comfort and sublime relaxation. This top-of-the-line woven material has become a favored feature in many Jensen Outdoor collections, including Coral, Forte, Inception, Nest, Unicon, Velo, and Soleo. In the outdoor industry, Solara Fiber continues to serve as a source of inspiration for collectors and aficionados who prize its long-lasting durability that is beautifully suited to any outdoor landscape.

Solara Fiber is crafted to be environmentally friendly and 100% recyclable. This ecologically sensitive fiber is created from high density polyethylene, which is free from PVC and entirely non-toxic. Even when badly burned, no toxic substances are ever produced for complete peace of mind for years of safe enjoyment with the whole family.

All the Solara Fiber frames you see in the Jensen Outdoor line are woven by hand in our Ho Chi Minh, Vietnam factory.

Povl Eskildsen
Aarhus, Denmark

CORAL, VINTAGE, RICHMOND, FOUNDATIONS
Furniture design came to Povl early, first from his family's furniture factory, then from Aarhus School of Architecture where he earned his M.A. in Furniture Design in 1986. Povl delights in crafting elegant transitional designs that fit well within any space, indoors, or out.

Dick Björk
Helsingborg, Sweden

OPAL, UNICON
Dick grew up making furniture at his father's side in his furniture shop in Sweden, then went on to graduate from the esteemed Trädskola Skolan in Helsingborg. Dick's designs offer stately transitional elements blended elegantly with clean lines to create understated outdoor furniture masterworks.

Edi & Paolo Ciani
San Giovanni al Natisone, Italy

SOLEO, BREEZE, NEST, HARMONY, TOPAZ, TEMPO, INNOVA, FOUNDATIONS
Brothers Edi and Paolo have been collaborating in design since 1992, both having degrees in technical design. The pair are known in the industry for sweeping modern and playful designs that comfort as they cradle.

ANIMAL-FREE ULTRALEATHER®

Now available to all collections in 12 colorways, Ultraleather® is a marine-grade, weatherproof fabric that has a 100% polyurethane surface on a rayon backing.

Ultraleather® has a luxurious look and feel similar to European calfskin. It is also more durable than real calfskin and has better resistance to punctures, snags, and rips. Ultraleather® is also resistant to soils and stains.

Ultraleather® uses a proprietary Takumi™ Technology that includes polycarbonate resins in its manufacturing process. The materials in Ultraleather® are resistant to temperature fluctuations and fading, and they naturally dissipate heat and moisture to maintain a neutral body temperature. Their unique construction and high-quality ingredients allow the material to withstand frequent cleaning, sun exposure, snow and rain.

Ultraleather® has a natural grain appearance with a soft hand. Ultraleather® is designed for high-performance applications and has a commercial-grade 400,000 double rubs rating for tear strength and abrasion resistance.

Ultraleather® is perfectly suited to remain outside during rain or shine for a set-it and forget-it ownership experience. This is because the fabric is impervious to water penetration. However, all cushions manufactured with Ultraleather® include air vents sewn in on the bottom side to allow for cushion compression and expulsion of any moisture from humidity.

Ultraleather® excels in bringing luxurious comfort you can set and forget outdoors to any Jensen Outdoor cushioned product.

See all twelve colorways on page 13.

John Caldwell
Pasadena, California

INNOVA, INCEPTION, FOUNDATIONS

John Caldwell's break into freelance furniture design was in Los Angeles in the late 1950's.

Caldwell has designed outdoor furniture, office furniture, accessories, umbrellas, lighting, and ceiling fans for the United States and world markets. He also has taught and lectured on design for 20+ years at various California colleges, including Long Beach State, Pasadena City College, and the Art Center College of Design.

Frederic Doughty
Philadelphia, Pennsylvania

LAGUNA, SAVANNAH

With furniture designs that are characterized by clean, timeless lines and comfortable proportions, Fred Doughty's award-winning style has evolved from the indoors out in a career spanning more than two decades.

Having studied design at the Rhode Island School of Design, and then at the Art Center College of Design in Pasadena, CA, Fred became Design Director of design consultant companies Brown Jordan Furniture and Price Pfister Faucets. As the principal of Premises Design, he has won three Pinnacle Awards from ASFD, as well as numerous awards from IIDA and ICFA.

SUNBRELLA® FABRICS: SOLUTION-DYED ACRYLIC

Sunbrella® has been the fabric of choice for Jensen Outdoor, offering the luxury of carefree comfort and distinctive style in any environment. Each solution-dyed acrylic fabric is crafted with remarkable attention to detail and designed for performance whether indoors, or out.

Sunbrella® is widely considered the crème de la crème of solution-dyed acrylic fabrics for outdoor use. One of its most appealing qualities is the impressive ability to maintain vivid colors year after year. While natural fibers tend to dramatically lose their vibrancy with time and wear, Sunbrella® fabrics made from synthetic threads are engineered to retain their colors longer and resist the natural elements better.

Sunbrella® fabric is specially dyed using a proprietary process that ensures that each and every string is vibrantly colored all the way through. This is in stark and surprising contrast to many other kinds of fabrics, whose colors only coat the surface of the threads and wear away over time. Any concerns about fading completely disappear as the fabric exhibits impressive resistance to UV rays, rain, temperature, and time.

For a full video walkthrough of the latest design trends in outdoor fabrics from the experts at Sunbrella® watch our "Outdoor Confidential" educational series on YouTube:

FOUNDATIONS

Dining & Accessory Tables

IPE, TEAK, & ALUMINUM

Foundations, A perennially updated collection, is the essential dining and accessory tables collection from Jensen Outdoor. Foundations perfectly pairs with any furniture piece of the same teak or ipe wood species.

DANA

Available in Teak

TEAK WITH TESLIN CORD SEAT

Designed by Alan Morley, Dana pays homage to Danish classics, specifically inspired by the iconic "The Chair" by Hans Wegner. A grade-A teak frame pairs to a teslin hand woven cord seat. The contour-shaped back and arms are joined to finely turned legs with contrast-colored wedge biscuit joints.

SAVANNAH

Available in Teak

TEAK AND PERFORMANCE CUSHIONS

The craftsman Savannah deep seating and dining collection is an homage to modern Americana. The seat frame is robustly crafted from 100% FSC®-certified teak timber and the outdoor cushions are enveloped in your choice of Sunbrella® or Ultraleather® fabrics.

INNOVA

IPE WOOD AND SUNBRELLA® OR ULTRALEATHER® FABRICS

Jensen Outdoor's award-winning Innova collection, continues to introduce modernized versions of classic Ipe-wood designs. Innova brings together the brightest design minds to answer the question:

*"How can classic shapes
be reimagined for modern tastes?"*

First is the Trellis modern lounge chair, which has won the prestigious 2023 International Casual Furnishings Association Design Excellence Award in the 'Lounge Seating Without Cushion' category. Conceived by Italian designers Edi & Paolo Ciani, Trellis sets the tone for the future of outdoor living.

Chris & Jon Panichella extend Innova's architectural language through the Harper and Aurora families—including dining armchairs, side chairs, benches, and now a counter-height Ipe side chair designed to introduce elevated comfort and a broader range of entertaining possibilities. Their Allure counter chair further expands the collection with a refined approach to slatted modernism.

Finally, the Melody 43" backless dining bench from the esteemed design house of John Caldwell merges geometry and comfort through floating seat panels that rise lightly above a strong sled-foot base—an elegant conclusion to a collection defined by thoughtful craft and enduring form.

- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Charcoal gray zinc-plated steel hardware
- Option of cushions in Sunbrella® or Ultraleather®
- Lounging, dining, and accessory frames
- New to the Innova Collection: Innova Sway Rocker, Innova Counter Height Dining (Cradle, Harper, Enza, and Allure)

Innova Cradle Counter Height Ipe Side Chairs

TEMPO

IPE WOOD AND ULTRALEATHER® FABRICS

Awarded “Best of Show” for Design Excellence by the International Casual Furnishings Association (ICFA) the all-weather tempo collection in marine-grade Ultraleather® is a show-stopper.

Tempo is the award-winning, Italian-designed, all-weather collection you can set and forget outside without the concern of moving your cushions whenever overcast skies turn to rain.

Offered in twelve colorways of Ultraleather® marine-grade, animal-free leather, the frame is elegantly crafted from 100% FSC®-certified solid Ipe timber.

The deep, chocolate-brown color of Ipe timber can be enjoyed for generations, or allowed to transform with sun and time into a silver patina that highlights its natural beauty.

Tempo embodies Italian elegance expressed in the soft curves of the seat being cradled by the firm lines of the Ipe wood frame. Additionally, the contrast-stitched seam adds a pop of interest to an already interesting collection.

- Modern Italian Design
- The 2026 Tempo Swivel chair offers 360° rotation
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Ultraleather® Waterproof Fabric
- Hidden Hardware

The Tempo collection offers twelve colorways of marine-grade animal-free Ultraleather® cushions (at right). →

GLOW

Available in Ipe-Look Cement Resin

- 40,000 BTU Commercial-Grade Propane Burner
- Ipe Wood-Look UV Print Cement Resin Finish
- Deep-Gray Stainless Steel Burner Cover
- Aesthetic Amber-Colored Fire Glass
- Light-Gray Logo All-Weather Cover
- Pairs with all Ipe Wood Furniture

Ultraleather® Colorways

HERITAGE

IPE WOOD, SUNBRELLA® OR ULTRALEATHER® FABRICS

The pride of Jensen Outdoor, Heritage (formerly Classic Ipe), embodies the legacy of our architecturally-inspired pursuit to bring value to every facet of the furniture we source, design, and craft.

Designed specifically for the unique qualities of its namesake, the Heritage collection features traditional cottage styling masterfully applied to suit deep chocolate-brown Ipe hardwood.

- Traditional rounded cottage styling
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Yellow zinc-plated steel hardware
- Option of cushions in Sunbrella® or Ultraleather®
- Lounging, dining, and accessory frames

The Franklin dining chair is a comfort-first addition to the Heritage (formerly Classic Ipe) collection.

CORAL

Available in Natural and Gray

IPE, SOLARA FIBER, & ALUMINUM FRAME

Coral features a transitional woven design with Solara Fiber in your choice of natural or gray. The handwoven fiber is expertly fitted around an aluminum frame with deep chocolate brown accents of smooth-touch FSC®-certified Ipe timber at the arms and base.

FORTE

Available in Tri-tone Sand

IPE, SOLARA FIBER, & ALUMINUM FRAME

Forte offers transitional design versatility through tri-tone Solara Fiber weave on a turned, FSC®-certified Ipe timber frame. Enhance the comfort and beauty of Forte with weather-resistant Sunbrella® or Ultraleather® fabrics to perfectly suit your outdoor decor.

HARMONY

Available in Charcoal

IPE, ALUMINUM, & SLING

Harmony features a contemporary powder-coated aluminum frame, tautly draped with supportive sling seating and deep chocolate brown accents of FSC®-certified Ipe wood on the arms and table tops.

MIX

IPE WOOD, SUNBRELLA® OR ULTRALEATHER® FABRICS

The luxury of choice arrives with the modular Mix Ipe sectional and deep seating collection from Jensen Outdoor.

Crafted with clean lines and soft radiused edges, Mix's sleek 'window pane' FSC®-certified Ipe wood seat frames offer a low frame-bed with elegantly tapered legs. The frame supports broad, yet supple, multi-layer performance foam cushions fitted with your choice of Sunbrella® or Ultraleather®.

- Modern clean styling
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Hidden zinc-plated steel hardware
- Cushions in Sunbrella® or Ultraleather® fabrics
- Lounging, dining, and accessory frames
- New to the Mix Collection: 18" square side table

Mix frames are designed to be modular, allowing you to create shapes to fit your space.

JETT

Aluminum Available in Black

IPE, SUNBRELLA®, ULTRALEATHER® & ALUMINUM

The sophisticated Jett collection blends FSC®-Certified Ipe timber with a black powder-coated aluminum frame. Designed for lounging in any landscape, multi-layer cushions are covered in your choice of all-weather Sunbrella® fabrics.

LAGUNA

Available in Ipe

IPE & ULTRALEATHER® or SUNBRELLA®

Contemporary comfort defines the fresh design of Laguna. The collection incorporates the touchstone of clean, classic lines in Ipe wood and comfortable Ultraleather® or Sunbrella® cushions to make this dining collection a welcome addition to any landscape.

NEST

Available in Metro Gray

IPE, SOLARA FIBER, & ALUMINUM

Retro cool with casual warmth, Nest's Solara Fiber weave artistically patterns into an embossed gray blend. The fine fiber is handwoven with care and wrapped around a powder-coated aluminum frame that is balanced by a FSC®-certified Ipe timber base.

SKY

IPE WOOD AND SUNBRELLA® OR ULTRALEATHER® FABRICS

The Sky collection brings a fresh allure to outdoor living from designers Chris and Jon Panichella.

Escape to the transitional world of Sky Ipe deep seating and dining seating collection from Jensen Outdoor. The clean, modern lines and soft, transitional details of Sky are masterfully expressed in the artfully-tapered contours of 100% FSC®-certified Ipe timber frame.

- Flared arm and back rails
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Black zinc-plated steel hardware
- Cushions in Sunbrella® or Ultraleather® fabrics
- Lounging and dining frames

Sky frames are designed to be transitionally elegant allowing you to blend them with any style. Notice the flared arm rests and fitted cushions (at right). →

OPAL

Available in Ipe

IPE, ULTRALEATHER®, & SUNBRELLA®

A jewel of the Jensen Outdoor family, the Opal collection dazzles with beauty and comfort in any landscape. Opal's signature detail, an open "O" on the upper back of each seating frame, resembles the circular shape of the precious stone that shares its name.

RICHMOND

Available in Ipe

IPE, ULTRALEATHER®, & SUNBRELLA®

Richmond features a traditional design crafted in Ipe wood. Gatherings are effortless with counter height, side and arm dining chairs.

SORRENTO

TEAK WOOD AND SUNBRELLA® OR ULTRALEATHER® FABRICS

FSC®-certified Teak at palace-scale with the Sorrento sectional and dining collection.

The natural elegance, immense strength, and extraordinary durability of teak makes it one of the world's most sought-after hardwoods for luxury outdoor furniture. Sorrento features a modern, wood-forward design of sustainably-sourced Teak crafted to create modular home entertaining spaces from sectionals to traditional deep seating.

- Modern Interpretation of Neo-Classical Designs
- FSC®-certified teak wood frames
- Smooth-as-glass sanded wood finish
- Hidden Metal Hardware
- Cushions in Ultraleather® or Sunbrella® fabrics
- Lounging and dining frames

Sorrento frames are designed to be modular, allowing you to create shapes to fit your space.

TOPAZ

Available in Beige or Brown Sling

IPE & OUTDOOR SLING

Topaz features FSC®-certified Ipe timber with the chic allure of tautly wrapped outdoor sling in beige or brown colorways for comfort without the cleanup. Tables are supported by the stylized display of conically-arranged angular feet with an elegant, yet functional design.

VINTAGE

Available in Roan weave

IPE, SOLARA FIBER, & ALUMINUM

Vintage features a shimmering roan Solara Fiber weave coupled with a powder-coated aluminum frame. This antique-inspired collection adds accents of FSC®-certified Ipe timber for a refined richness to table tops, chair arms and supportive feet of the frames.

Sculptural FSC®-Certified Teak elements create a bold architectural presence.

INCEPTION

TEAK WOOD AND SOLARA WOVEN FIBER

“Floating” woven Solara fiber frames above supportive teak timber bases.

With FSC®-certified, golden-blonde, teak accents and a mid-century, bronze-hued woven frame, Inception is a collection that is inspired by mid-century, but woven for this century. These pieces defy expectations by appearing to “float” above the ground. The teak arms and table tops are stunningly fluted to allow for maximum hand-feel during long lounging sessions. Inception has a debonair flair for comfort that is inspired by the indoor designs of the mid-century greats.

- Inspired by mid-century designs
- FSC®-certified teak wood frames
- Smooth-as-glass sanded wood finish
- Cushions in Ultraleather® and Sunbrella® fabrics
- Lounging, side, and arm chair frames
- New to the Collection: The Inception Swivel Rocker

UNICON

IPE AND SOLARA FIBER

Urban comfort for traditional tastes in sectional, traditional, and dining seating.

Swedish craftsman Dick Björk brings traditional design at an urban scale, easily able to fit on any porch, with the Unicon collection.

Cleverly designed with modular sectional or traditional seating groups in mind, the frames have transitional fluted ipe wood backs with traditional arm-rest necks give maximum hand-feel. The dining frames pair woven Solara fiber seats with Ipe frames for set-it and forget-it comfort.

- Traditional design to urban scale
- FSC®-certified Ipe wood frames
- Smooth-as-glass sanded wood finish
- Solara Fiber Dining Seats
- Cushions in Ultraleather® or Sunbrella® fabrics
- Lounging and dining frames
- New to the Collection: The Unicon Swivel Rocker

VELO

SOLARA WOVEN FIBER AND CEMENT TABLE TOPS

A vision for the future of outdoor living.

Velo, is the first introduction from Jensen Outdoor to solely leverage wonderfully strong and light Solara fiber handwoven around a powder-coated aluminum frame, accented with cement table top surfaces for accessory tables. The comfort of Velo is unmatched with an on-trend camel-color weave colorway with your choice of any Sunbrella® or Ultraleather® fabric that brings out the warmth of everyday use.

- Solara fiber and powder-coated aluminum frame
- Cushions in Ultraleather® or Sunbrella® fabrics
- Lounging seating and accessory frames
- Swivel chair offers 360° of seamless rotation

PLUME PILLOWS

SOLUTION-DYED ACRYLIC COVERS, EMBROIDERED DESIGNS, AND PERFORMAPLUSH FAUX DOWN INSERTS

Performance pillows that are the uncommon thread to unforgettable gatherings.

Our line of performance pillows, Plume, features industry-unique elements: embroidered designs, deluxe solution-dyed acrylic covers, PerformaPlush faux-down inserts, stylish flanged edges, and a hidden-access zipper construction for unmatched outdoor style.

Offered in 20x20" Square and 14x22" Lumbar dimensions these 14 pillow colorway options will appeal to any audience.

- Finest materials, designs, and hand-feel
- Solution-dyed acrylic covers
- Industry-unique embroidered patterns
- Removable faux down PerformaPlush inserts
- Hidden zipper cover construction

CARE PRODUCTS

FOUR LEVELS OF OPTIONAL CARE

Revive Ipe wood from troublesome stains.

Ipe Restoration Kit

By Penofin® **Ipe Wood**

Verde Oil Finish

By Penofin® **Ipe Wood**

Always read the full directions on the care product package before use.

FAQs

CARE TIPS

Wood

Ipe and Teak are natural materials that, when left alone outdoors, will begin to weather to a graceful silver-tone finish when exposed to the sun and rain. The look and feel of wood is a key appeal to owning natural outdoor wood furniture. To keep yours looking its best, consider these easy care tips:

1. Apply **Wood Shield** to protect against water and food stains, then enjoy your set for the season.
2. As spills, dirt, or dust occur, wash with a soft towel and mild dish soap, then rinse clean with water.
3. Teak is meant to be enjoyed with a well-aged silver-patina. As needed, repeat steps 1 and 2.
4. Ipe may also be enjoyed with a silver-patina, or may be restored to its 'as new' color by cleaning and applying **Penofin® Verde** as directed.

Cushions

Sunbrella® performance fabrics are made with 100% solution-dyed acrylic to stay color-fast year after year. To keep your cushions in tip-top shape:

1. Apply **Fabric Protector** to cushions to make them stain and mold repellent.
2. It's recommended to place your cushions in a dry, covered space when not in use.
3. As spills, dirt, or dust occur wash with a soft bristle brush and **Fabric Cleaner**, then rinse clean with water.

Weave

Handwoven Solara Fiber is made for outstanding durability. To maintain your woven surfaces:

1. To remove dust, simply clean with a bristle brush and lightly rinse with water as needed.

The look of Ipe wood before and after being restored to an "as new" finish.

PRESSURE WASH

Never pressure wash your furniture, as there is a high risk of damage to the finish. Always follow all directions as listed on the care supply packaging.

WINTERIZE

Ipe & Teak withstand the cold temperatures of winter just fine. You can leave your furniture uncovered all winter and clean or restore them in the spring for the finish you desire.

Cushions should be cleaned and dried completely before being stored in a dry-ventilated space to keep the wear of winter (and rodents) away from your beautiful Sunbrella® or Ultraleather® fabrics.

HAND WASH

We recommend that you only hand wash your cushions because when the cover is removed, the foam expands, making it difficult to get your covers back on to your cushions.

IPÉ VERSUS TEAK

Both materials are well suited to the outdoors, however because Teak has a natural oil that provides its water resistance, it will go gray over time as it ages.

Ipe however, has a Penofin® Verde stain applied to it which can be re-applied at any time to bring back the original finish, or if desired, can be left to age to a silver patina.

LIMITED WARRANTY

EFFECTIVE (08/15/2023)

Jensen Leisure Furniture, LLC d.b.a. "Jensen Outdoor" warranties to the original purchaser ("Purchaser") that, for a period of five (5) years of residential use or for a period of three (3) years of commercial use from the date of purchase (except as specified), under normal use and service conditions, Jensen Outdoor furniture shall be free from defects in workmanship or materials.

This warranty shall only be applicable and enforceable in the United States of America and Canada.

WOOD FRAMES

Wood frames are warranted to not break or crack for five (5) years of residential use or three (3) years of commercial use. Wood frames require user maintenance and changes in the color of the wood are normal and should be expected to occur over time as the natural material ages. Therefore, fading and color changes in wood frames are not covered by this warranty. Small checks in the surface (minuscule openings of the wood grain at the ends when exposed to the elements over time) are natural and in no way affect the structural integrity of the frames. Superficial checks are not covered by this warranty. Components such as plastic foot glides are subject to wear and tear and are not considered part of the frame.

METAL FRAMES

Welds and joints are warranted to not break or crack for five (5) years of residential use or three (3) years of commercial use. Powder coat finish is warranted to not peel for five (5) years of residential use. Rust or corrosion of metal components, when placed in close proximity to known salt environments, is not covered by this warranty.

HARDWARE

Hardware used in the production or assembly of Jensen Outdoor furniture is warranted to not break for five (5) years of residential use or three (3) years of commercial use.

WOVEN FIBER

Woven fiber is warranted to not fail structurally, crack, unravel, fade excessively, or rot for five (5) years of residential use or three (3) years of commercial use.

SLING FABRIC

Sling fabric is warranted from tears and becoming non-functional because of loss of dimensional stability from exposure conditions including sunlight and normal atmospheric conditions for three (3) years of use. Abnormal or excessive discoloration and fading are covered.

CUSHION & PILLOW FABRIC

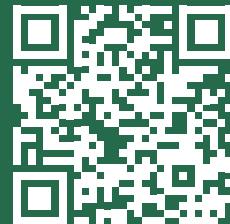

Cushions and pillows are warranted to be free from workmanship or material defects for one (1) year from purchase. The fabric on cushions and pillows is warranted to not tear, or fade excessively for one (1) year from purchase.

HIGH-PRESSURE LAMINATE (HPL)

High-Pressure Laminate (HPL) is warranted to not fail structurally, crack, fade excessively, or rot for five (5) years of residential use or three (3) years of commercial use.

WARRANTY FORM

jensenoutdoor.com/warranty

For service under this warranty, the retailer or designer will need to submit a warranty claim on their customers' behalf.

Scan the QR code to submit all of the required details with the Jensen Outdoor warranty form.

EXCLUSIONS

Proper maintenance of your product is required to support the benefits of this warranty. This warranty is voided in the event that there are indications of abuse or neglect to the furniture. This warranty does not apply to normal wear and tear effects on Jensen Outdoor products, which are received by regular use of the products.

This Limited Warranty does not apply to damage resulting from normal wear & tear, handling, improper or lack of use, care, or maintenance, abuse, accident, alteration, tampering, natural variation of color, texture, or grain and aging of natural products, or use in violation of applicable laws, rules, regulations, and ordinances.

Customer's Own Material (COM) and any other material are not covered by this warranty.

Repair or modification by anyone other than Jensen Outdoor or an approved agent of Jensen Outdoor voids the warranty. Additional exceptions may apply. Freight damage is not covered under our Jensen Outdoor Limited Residential Warranty.

Jensen Outdoor expressly disclaims all other warranties, express or implied, statutory or otherwise, including but not limited to, any warranty of merchantability, title, non-infringement, or fitness for a particular purpose.

We reserve the right to discontinue or modify any product line or color without notifying the Purchaser. If the original product is not available, we retain the right to choose to provide replacement material of equal value or quality.

No person or entity is authorized by Jensen Outdoor to make (and Jensen Outdoor shall not be bound by) any statement or representation as to the quality or performance of Jensen Outdoor products other than as contained in this warranty.

This warranty may not be altered or amended except in a written instrument signed by Jensen Outdoor and Purchaser. Under no circumstances will Jensen Outdoor be liable for special, incidental or consequential damages, whether such damages are sought in contract, in tort (including but not limited to negligence and strict liability) or otherwise, and Jensen Outdoor's liability with respect to defective products shall in no event exceed the replacement of such products or return of the purchase price, as described above.

Some states do not allow the exclusions or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state.
