LP GRAND SURFACE

Surface Mounted

Designer: Christian Flindt

Description: The circular luminaire emits a combination of softly diffused, glare-free, downwardly directed light and reflected indirect light from its curved upper rings. A large angled reflector encircles the diffuser and reduces the contrast around the edge. The top reflector is perfectly curved to distribute uplight at a broad angle. A colored outer shade surrounds the reflector and creates an interreflection of light, resulting in a graceful glow on the outside of the top and bottom reflectors. In total, it creates four rings of light surrounding the central diffuser.

Finish: Reflector: Matte-white satin finish.
Outer shade (outside): Matte (black and champagne) or gloss (white). Wet-painted surface. Diffuser: Glossy.

Pendants

Designer: Louise Campbell

Description: The fixture emits a primarily downward illumination. The perforated pattern on the shade provides a soft illumination around the fixture. Meanwhile, the perforation helps lighten up the surface of the shade in a decorative way, when it is turned on, thereby maintaining the contour of the fixture, whether it is on or off. The light source is surrounded by an opal diffuser, which ensures that the fixture is 100% glare-free. And finally, the shape of the diffuser allows a beautiful view into the fixture.

Finish: White, powder coated.

Material: Shade: Spun aluminum, punched and embossed. Suspension: Die cast aluminum. Diffuser ball: handblown matte white opal glass.

Mounting: Cord type: 2-conductor, 18 AWG white PVC power cord. Canopy: White. Cord length: 12'.

Weight: Max: 6 Lbs.

Compliance: cULus, Damp location.

LP GRAND SUSPENDED

Pendants

Designer: Christian Flindt

Description: The circular luminaire emits a combination of softly diffused, glare-free, downwardly directed light and reflected indirect light from its curved upper rings. A large angled reflector encircles the diffuser and reduces the contrast around the edge. The top reflector is perfectly curved to distribute uplight at a broad angle. A colored outer shade surrounds the reflector and creates an interreflection of light, resulting in a graceful glow on the outside of the top and bottom reflectors. In total, it creates four rings of light surrounding the central diffuser.

Finish: Reflector: Matte-white satin finish.
Outer shade (outside): Matte (black and champagne) or
gloss (white). Wet-painted surface. Diffuser: Glossy.

PATERA

Pendants

Designer: Øivind Slaatto

Description: This spherical pendant emits a glare-free glow of light, which is reflected by the small diamond-shaped cells that comprise the fixture. The lamp's structure ensures that the light is glare-free from above 45 degrees while also allowing the fixture to emit a downwardly directed light as well as an upward radiance, illuminating the ceiling to lend further ambiance to its surroundings. Each cell shapes the light by creating soft transitions between direct and reflected light to emphasize the pendant's remarkably radiant sphere.
Finish: White, matte-coated.

Material: Shade: Cut, matte, PVC foil.
Suspension: Matte-chromed aluminum and die-cast acrylic.

Mounting: Canopy: White. Cord type: 2-conductor, 18 AWG white PVC power cord. Cord length: 12'. LED variants include 1x stainless steel aircraft cable.

Weight: Max 15 lbs.

Compliance: cULus, Damp location.

PATERA OVAL

Pendants

Designer: Øivind Slaatto

Description: The pendant is a glowing ellipsoid made up of diamond-shaped cells. Each cell has been carefully designed to capture light and to conceal the light source when viewed from angles above 40 degrees. Below 40 degrees, the lamp provides direct, downward light. The round opening underneath provides direct light with a soft transition toward the reflected light. The pendant can be used with or without a diffuser plate, depending on whether or not the view of the light source creates an unwanted glare.

Finish: White, matte coated.

Material: Shade: matte PVC sheet. Frame: White, opal, matte-coated injection-molded polycarbonate with steel reinforcing rods. Stem: aluminum. LED: Aluminum heatsink. Bottom diffuser: Injection-molded opal white acrylic.

Mounting: Canopy: White. Cord type: 2-conductor, 18 AWG white cloth-covered power cord. Cord length: 12'. LED: Canopy contains driver.

Weight: Max. 3.4 kg

Compliance: cULus, Damp location.

LP GRAND WALL

Wall lamps

Designer: Christian Flindt

Description: The circular luminaire emits a combination of softly diffused, glare-free, downwardly directed light and reflected indirect light from its curved upper rings. A large angled reflector encircles the diffuser and reduces the contrast around the edge. The top reflector is perfectly curved to distribute uplight at a broad angle. A colored outer shade surrounds the reflector and creates an interreflection of light, resulting in a graceful glow on the outside of the top and bottom reflectors. In total, it creates four rings of light surrounding the central diffuser.

Finish: Reflector: Matte-white satin finish.
Outer shade (outside): Matte (black and champagne) or gloss (white). Wet-painted surface. Diffuser: Glossy.
