

Monterey Sands

INFLUENCES: There is no denying the passion and desire of today's consumers to simplify their lives and their surroundings. In all facets of interior design, the use of pleasing neutral backgrounds and lighter wood tones create an environment that is intentionally more gratifying to the eye and the soul. The casual elegance of transitional styling resonates with great effect in these designs. Monterey Sands blends the comfortable understated style of the West Coast with natural elements, decorative metal accents, and a unique finish that delivers a fresh look – an exciting new direction for the transitional style category.

MATERIALS: Elm veneers (gently wire-brushed to highlight its long elegant grain lines) and select hardwood solids, with woven rattan and metal accents on select pieces

DRAWER CONSTRUCTION: English dovetails, wood runner & guides, and Lexington drawer plaque (antique brass finish)

HARDWARE: custom designed in a distinctive burnished bronze finish, inspired by jewelry with heavier dimension at the bottom of the ring pull, and smooth curvature to the lip pull fastened to the top of drawers

FINISH: 830 CAMBRIA - sandy brown with an oyster white finishing glaze to accentuate the depth and character of the wood

UPHOLSTERY FABRIC CORRELATES:

GROUP A: Tonal hues of sand and sea foam help to create this coastal inspired relaxed setting. The textural ribbed body cloth has a beautiful striae and is paired with a geometric ikat and a gorgeous velvet – like cloth. An embroidered trellis patterned fabric and menswear herringbone add to the overall appeal.

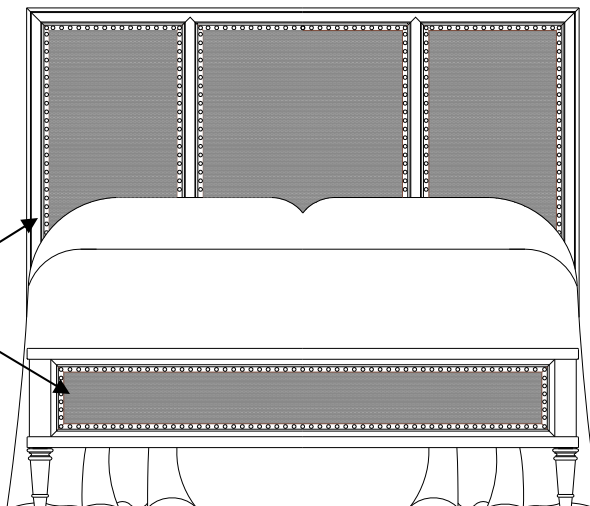

GROUP B: Monochromatic hues of natural linen, parchment, and driftwood create a luxurious and livable setting. The layering of a linen pinstripe, textural weave, and great embroidered novelty achieve a visual comfort enhanced by our new bliss down cushioning. A small ticking stripe and tonal chenille with the look of a sun bleached rug add subtle pattern to complete the setting.

GROUP C: A beautiful sea glass hued setting has a calming and serene feel. The ivory textural body cloth is paired with two balanced stripes of aqua, ivory, and charcoal with a pop of aqua linen. An embroidered geometric fabric adds a bit of pattern.
