# Design & Sustainability

## Outdoor Living without Compromise

Our design philosophy centers around a belief that outdoor furniture should not have to sacrifice comfort and style for durability. EnviroWood's eco-friendly, low maintenance benefits combined with our attention to detail, ensure that Seaside Casual Furniture remains strong and beautiful for a lifetime.

H

## Hidden Fasteners

Seaside Casual has developed multiple methods of concealing fasteners in many of our designs. From pocket screws to hidden brackets to the tap® system, we take every measure to ensure that we provide indoor furniture style and craftsmanship for outdoor living.

## EnviroWood®

Made using high-quality recycled HDPE (high density polyethylene), our HDPE is sourced primarily from milk jugs and bottles, reducing solid waste at landfills. Each linear foot of a 2" x 6" plastic board contains 3.2 pounds of recycled material making EnviroWood® one of the most durable, maintenance free and earth friendly materials used for outdoor furniture.

## Rhode Island Roots

Every piece of furniture that we offer begins on the design table at our family-owned Rhode Island facility. All of the raw materials that we use to create our award-winning designs are machined, assembled, processed, packaged, and shipped by our team from our warehouse in Coventry, RI.

We stand strongly behind our "Made in Rhode Island" roots, including our continuing efforts to source our materials from within the U.S.A. whenever we reasonably can. However, some of the items we design require components which aren't readily available from domestic suppliers. As a US manufacturer, we believe in the importance of communicating to our customers which of our products contain imported components:

**The Aura Collection** (pp 16-17)  
Imported fire components

**The Greenwich Collection** (pp 12-15)  
Imported aluminum frames and woven panels

**The HIP Collection** (pp 8-11)  
Imported aluminum frames

**The MAD Collection** (pp 22-29)  
Imported woven panels and Chaise frames

**Complementary Pieces & Accessories** (pp 50-55)  
Imported commercial liners

## Fusion

Flexible fast and fun, Fusion provides ease in customization with an array of color and material selections. All-Weather Woven and EnviroWood® slats, panels and tops can be mixed with aluminum and EnviroWood® frames by simply selecting a color/material option for each frame/base, then slat/top/panel followed by the product SKU to create a 7-digit code for easy ordering. Fusion items are shipped in two boxes.

2

## 2-Tone

Now it is easy to create unique color combinations for many of our most popular items. Mix or match frame and slat colors using any of the EnviroWood® color selections available for that product. Order using frame/base color code followed by slat/top code, followed by the product SKU to create a 7-digit code. 2-Tone items are made to order and usually ship in a single box.

P

## Premium Wood-Tone Finishes

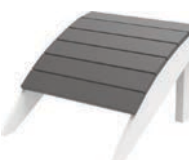

Made using the same high-quality recycled HDPE as standard EnviroWood®, Premium colors include a multi-tone and textured finish that brings a natural wood-like appearance to many of Seaside's most popular designs. Natural grain patterns combine with Seaside's solid structural construction to create a real wood look, unmatched in its class.

# Care & Maintenance

Seaside Casual Furniture is extremely low-maintenance but does require occasional cleaning and care. In addition to hosing off salt water on exposed metals, EnviroWood® and Outdoor Fabrics should be cleaned of dirt, grime and mildew from time to time. Seaside produces specially formulated cleaning products that help to keep your outdoor furniture beautiful and last longer. Available exclusively through Seaside Casual authorized dealers.

## MultiClean® Outdoor Furniture & Fabric Cleaner [C699911]

### Multi-Use Formula With PTFE

Specially formulated for both EnviroWood® outdoor furniture and fabrics, MultiClean is the recommended cleaner for all cushions and pillows from the Seaside catalog. In addition to its cleaning properties, MultiClean also contains PTFE, a compound that adds a protective seal to outdoor surfaces.

## EnviroWood® Outdoor Furniture Cleaner [C699910]

### Heavy Duty Formula With Mildew Stain Remover

Designed specifically to remove tough stains from EnviroWood® and other outdoor furniture. This all surface cleaner is ideal for the toughest dirt and mildew stains and helps to maintain the beauty of Seaside Casual Furniture.

Exposed metal surfaces and hardware, as salt from coastal air and water can accumulate over time.

Furniture surfaces and fabrics with a mild soapy mixture and a soft scrub brush as needed.

You're all done. Enjoy your furniture!

# 10 reasons to choose Seaside.

1

## RHODE ISLAND ROOTS

We began making furniture at our Rhode Island lumberyard in 1996. It started as a hobby with just one Adirondack chair. With the encouragement of our local community, we began making and selling more chairs. That single design has now grown into a collection of over 150 products.

2

## ENVIROWOOD.

In 1999 we introduced Envirowood — a 100% High Density Polyethylene (HDPE) lumber. Made from recycled plastic bottles and containers, Envirowood is permeated with UV stabilized pigments that are consistent throughout the entire piece. The result is a smoother and more durable finish that prevents chalking and resists fading of the surface.

3

## INDOOR COMFORT.

Our lumber is milled and routed to simulate the look and feel often found in traditional wood furniture. Joints are secured using mortise and tenon joinery and edges and corners are milled on precise CNC machinery. In short, we produce our outdoor collection at specifications usually applied to interior furniture.

4

## STAINLESS FASTENERS.

All stainless steel fasteners are not created equal. Low grade stainless or painted components can easily corrode in harsh coastal environments. We use marine grade stainless steel (316) to ensure superior protection when exposed to the elements.

5

## SOLID AS A ROCK.

Unlike molded products, our frames are constructed with HDPE lumber components that are designed to withstand temperature and load changes. Structural aluminum is used to reinforce critical frame members in key locations. The result is a product that will not tip, topple, or turn over on your patio, deck, or lawn.

6

**SLATS AND SPACES.**

Appropriately spaced slats are the difference between support and the feeling of "falling through" the seat or back of your chair.

7

**IT ONLY HAS A GOOD SIDE.**

All of our products are completely finished on all surfaces. This means all backs and seats are slatted and supported so that they look and feel great even when cushions are not in use.

8

**CUSTOM UPHOLSTERY.**

We offer a wide selection of custom fitted cushions made from Sunbrella and Outdura fabrics. These premium fabrics repel water, are stain resistant, and resist fading, even in the brightest of sun.

9

**TAKE IT FOR A TEST DRIVE.**

We test the ergonomics of our products constantly throughout the design phase and we believe our customers should have the opportunity to do the same when making a purchase. Because of this belief, we forge relationships with retailers who offer brick and mortar showrooms. These relationships ensure the expertise that we expect and the service our customers appreciate.

10

**PEACE OF MIND.**

Our products are backed with a 20 year warranty that offer the support and commitment of a family-owned company with over 100 years in the making.
