OUTDOOR LIVING

Très Chic

Sculpted in hand-rubbed teak and brushed stainless steel, the sinuous lines of Très Chic redefine the allure of inspired contemporary design. The recurring horizontal slat motif imparts a clean, sophisticated Pan Asian vibe to the collection, while the sweeping arc of the tall canopy screens offers an iconic statement of style. The portfolio includes small and large scale dining, unique occasional designs, remarkable upholstered seating and a fire pit that creates a dramatic focal point. Tommy Bahama invites you to explore the couture look of refined contemporary design with Très Chic.

The rectangular shape of the stacked stone Très Chic fire pit makes it ideal for use with a sectional, flanking sofas or a grouping of lounge chairs. The blending of colors in the custom Weatherstone® pattern, ranging from soft gray to warm brown earth tones, is intentional. Whether you choose to oil the teak items surrounding the fire pit or let them weather to a natural gray patina, the look is equally complimentary.

When not in use, a beautifully monogrammed cast aluminum burner cover is available as an option. Also available is a custom tempered glass flame guard. In coastal or mountain environments, wind gusts can blow the flames horizontally. This optional guard is an elegant way to enjoy the beauty of the flames without letting them stray beyond the boundaries of the burner.

Très Chic

NATURAL TEAK AND BRUSHED STAINLESS STEEL

The beauty of the Tres Chic collection lies not only in its remarkable design, but also in the blending of natural teak with brushed stainless steel. Teak is a wood species highly valued for its beauty, durability and resistance to the elements, making it the ideal natural material for crafting premium outdoor furniture. The teak used in Tres Chic originates from plantations certified by the Forest Stewardship Council for sustainable growth and harvesting.

The Elegant Aging of Teak

The teak elements in Tres Chic have been sanded and treated with a special UV protectant called OSMO 410 UV Protection Oil to achieve a warm golden-brown finish. When allowed to age naturally, teak will gradually lighten to a soft silver-gray patina, which many consider highly desirable. Teak does not require special maintenance or protection. The silver-gray coloration is a sophisticated look in combination with brushed stainless steel.

If you prefer the Teak to retain its golden appearance rather than aging naturally, it will be necessary to periodically re-apply OSMO oil or a high-quality teak oil. The timing between applications will vary depending upon the climate in which the furniture is placed. If the Teak is allowed to age before the re-application of OSMO oil or teak oil, it may be necessary to clean the wood with warm soapy water, rinse, and allow to air dry for 24 hours before applying the oil.

OSMO 410 UV Protector Oil is available from GreenDepot at (206) 315-1974 or online at www.greendepot.com. It should also be noted that some transfer of oil can occur if fabric cushions are left sitting on oiled teak for an extended period of time.

The Beauty of Brushed Stainless Steel

The 304 brushed stainless steel used in Tres Chic is the finest quality available for outdoor furniture designs. It is highly resistant to corrosion, but the surface is still susceptible to the effects of salt water and airborne chemicals, which will result in pitting or small brown spots on the metal surface. This is particularly the case in coastal climates, or where the furniture is exposed to chlorinated pool water.

Residue from salt air or chlorinated water must not be left on stainless steel for prolonged periods. A highly effective stainless steel maintenance kit, comprised of a cleaner and protectant, is available through Golden Care Products at (800) 706-5225 or online at www.koverroos.com. Minor brown spots can also be easily cleaned by gently rubbing the stainless steel with an extra fine Scotchbrite pad in the direction of the brushed finish.

The Final Touches program is a collection of options that can be selected to create your custom outdoor upholstery at NO CHARGE.

Simply choose your seat fabric to determine the graded price, then select any combination of the following options to create your unique custom outdoor upholstery:

Contrast with FABRIC....using any fabric Grades A-B-C-D-E

- on both sides of standard throw or kidney pillows
- on one side of standard throw or kidney pillows
- on back cushions (where standard)
- on kidney pillow borders

Contrast with WELT....using any fabric Grades A-B-C-D-E

- on standard throw or kidney pillows
- on back cushions
- on seat cushions

Contrast with TRIM....on standard throw or kidney pillows

- add outdoor decorative fringe
- add outdoor decorative cord

Your choice...no charge. Final Touches No Charge Options applies to all custom outdoor upholstery frames. When using a seat fabric in Grades F-G-H, contrasting fabrics and welts at the same grade or below are included in the base price. However, if the seat fabric is Grades A-B-C-D-E, contrasting fabrics and welts in F-G-H require an upcharge. See dealer for pricing.

**3100-702
Tommy Bahama Signature Umbrella**
11 ft. dia. x 8 ft. 9 in. H
Pole type and color:
2 piece, auto-tilt, aluminum bronze pole
Fabric number and color:
7404-71, cork;
dark brown logo

Umbrella canopies are 11-foot diameter and double wind vented.
* Canopies have two silk screened Tommy Bahama logos (shown above) and one color ink as noted.
* The extra ballast weight is for stability against winds, but is not required for use with umbrella stand.

**3100-35CUB
Tommy Bahama Cast Aluminum Umbrella Base**
18 dia. x 21H in.

**3100-UBWT
Extra Ballast Weight**
30 pounds; not shown

All aluminum pole umbrellas are auto-tilt and have the distinctive scripted TB monogram on the crank handle.

THE FINEST MATERIALS

NATURAL TEAK AND BRUSHED STAINLESS STEEL

The beauty of the Tres Chic collection lies not only in its remarkable design, but also in the blending of natural teak with brushed stainless steel. Teak is a wood species highly valued for its beauty, durability and resistance to the elements, making it the ideal natural material for crafting premium outdoor furniture. The teak used in Tres Chic originates from plantations certified by the Forest Stewardship Council for sustainable growth and harvesting.

The Elegant Aging of Teak

The teak elements in Tres Chic have been sanded and treated with a special UV protectant called OSMO 410 UV Protection Oil to achieve a warm golden-brown finish. When allowed to age naturally, teak will gradually lighten to a soft silver-gray patina, which many consider highly desirable. Teak does not require special maintenance or protection. The silver-gray coloration is a sophisticated look in combination with brushed stainless steel.

If you prefer the Teak to retain its golden appearance rather than aging naturally, it will be necessary to periodically re-apply OSMO oil or a high-quality teak oil. The timing between applications will vary depending upon the climate in which the furniture is placed. If the Teak is allowed to age before the re-application of OSMO oil or teak oil, it may be necessary to clean the wood with warm soapy water, rinse, and allow to air dry for 24 hours before applying the oil.

OSMO 410 UV Protector Oil is available from GreenDepot at (206) 315-1974 or online at www.greendepot.com. It should also be noted that some transfer of oil can occur if fabric cushions are left sitting on oiled teak for an extended period of time.

The Beauty of Brushed Stainless Steel

The 304 brushed stainless steel used in Tres Chic is the finest quality available for outdoor furniture designs. It is highly resistant to corrosion, but the surface is still susceptible to the effects of salt water and airborne chemicals, which will result in pitting or small brown spots on the metal surface. This is particularly the case in coastal climates, or where the furniture is exposed to chlorinated pool water.

Residue from salt air or chlorinated water must not be left on stainless steel for prolonged periods. A highly effective stainless steel maintenance kit, comprised of a cleaner and protectant, is available through Golden Care Products at (800) 706-5225 or online at www.koverroos.com. Minor brown spots can also be easily cleaned by gently rubbing the stainless steel with an extra fine Scotchbrite pad in the direction of the brushed finish.

PERFORMANCE FABRICS

Creating a seamless transition from an elegant interior décor to a stylish outdoor space is the essence of refined living today - and blurring the lines between indoor and outdoor living lies in merging beauty and durability. Fabrics must have the sophisticated look and luxurious hand of residential textiles, plus the performance technology to withstand the most extreme outdoor conditions.

The Tommy Bahama Outdoor Living program includes fabrics and trims from industry leaders in performance technology. A “performance fabric” is one with the following attributes:

- Fibers that are solution-dyed to the core, rather than simply on the surface
- Colorfast dyes that are highly resistant to fading from UV exposure
- Fibers that are inherently resistant to mold and mildew
- An extremely tight weave to withstand the wind and elements
- A durable finish for superior stain and water resistance

The Tommy Bahama Outdoor Living program is unique in the industry for its wide-ranging assortment of exceptional performance fabrics and correlating trims, offering the ability to customize upholstery whose impeccable tailoring, seating comfort and designer looks are equally at home, indoors or out.

WEATHERGUARD™ UPHOLSTERY CUSHIONS

The exclusive Tommy Bahama Outdoor Living WeatherGuard™ cushion is engineered to be highly water resistant, mildew resistant and anti-microbial, while offering the most ultra-comfortable seating in the industry. In fact, the comfort is superior to the cushioning on most fine indoor upholstery. The unique construction consists of (4) distinct layers.

- The inner core is 1.8 lb. density, high-resiliency foam that provides unparalleled support, functioning like a box spring in premium bedding. It is both mold and mildew resistant.
- The second layer is soft-cell foam, designed to provide a relaxed but supportive seat, like a plush mattress.
- The third layer is spun polyester fiber, which is inherently anti-microbial and functions like a pillow-top, offering down-like comfort and a luxurious “crown” to the cushion.
- The fourth layer is a wrapping of water resistant non-woven ticking with a Tommy Bahama watermark to verify its authenticity. This ticking is thermally sealed to prevent water penetration into the layers below.

Seating comfort is one hallmark of the Tommy Bahama Outdoor Living program. The exclusive WeatherGuard™ cushion is your assurance that the quality, look and longevity of the cushioning will match its unsurpassed comfort.
