Manufacturers of world class outdoor parasols since 1990...

Since entering the market back in 1990, Woodline has been supplying a comprehensive range of top-quality, price-competitive OEM parasols for the local and international market. Well-known brands and contract market customers have benefited from our premium grade screen printing and latex digital printing, providing excellent branding opportunities for commercial applications.

Every aspect of our shade systems has been designed and produced to the highest standards possible for strength and longevity. We only use high grade non-corrosive materials for our frames and structures, such as lightweight aluminum, ultra weather-resistant eucalyptus and stainless steel for its remarkable strength.

As vertically integrated manufacturers of our own products in our own factory, we ensure each product meets our high standard of excellence, while providing opportunities to skilful artisans and a growing labor force dedicated to delivering the best possible products on time, every time. Our manufacturing hub is based in one of the fastest expanding urban areas in South Africa, and we have sales and distribution offices in Johannesburg and the USA. Bolstered by the current expansion of our purpose-built factory with significant growth potential, we are looking forward to a bright future.

MANUFACTURER OF PARASOLS
We are the biggest manufacturer of parasols in the whole of Africa

YEARS OF EXPERIENCE
We have been manufacturing our own parasols since 1990

STAFF MEMBERS
We supply jobs to over 100 employees in South Africa

Sky

stainless steel

Available in these shapes & sizes:

rectangular

feet / meters
9.5 x 13.0 ft / 2.9 x 4.0m
2.5 inch pole Ø
Code: SKY34RESS

The Sky is a minimalistic free-floating shade solution that blends a mix of modern high-tech components with classic simplicity of design. The large horizontal canopy is ideal for substantial seating areas requiring unobstructed open space, while two or more may be grouped side-by-side for even bigger environments. With its intelligent use of assisting gears, the Sky is a breeze to open and close and the sturdy stainless steel TIG welded structure is rock-steady, even in strong winds.

2 Sky shades joined side-by-side

The reduction gearbox and crank handle allow for easy opening and closing of the canopy. The locking pins secure the structure in place while the pivot box has been engineered to cope with all kinds of weather conditions.

Sky Spigot

Papillon

hardwood & stainless steel or stainless steel

Available in these shapes & sizes:

rectangular

feet / meters
10.0 x 15.0 ft / 3.0 x 4.6m
2.4 inch pole Ø

Hardwood & Stainless Steel
Code: PA346REE

Stainless Steel (Marine Polish)
Code: PA346RESSMP

Stainless Steel (Glass Bead)
Code: PA346RESSGB

Choice of 3 finish options:

hardwood and stainless steel

stainless steel (marine polish)

stainless steel (glass bead)

At heart, the Papillon is the absolute socialite. Its dual post framework invites views and conversations to go on, unobstructed, in glorious shade and shelter, day and night. This unique range of shade cannot help but bring an air of grandeur to its surroundings. It stands alone as the largest of all Woodline shade solutions and yet this extraordinary shade can easily be extended further by articulating two or more Papillon structures together. Fabric walls can also be attached directly to the frame and awning to provide privacy and shelter from the wind.

Two or more Papillon shades can be joined together, either side-by-side with the use of an additional rain gutter to create one continuous awning, or placed end-to-end extending the shaded area in length.

Papillon Tube

Rectangular Metal Plate

Deck Mount

Papillon

in a league of its own

Wind Rating: Moderate Wind

Application: Patios, restaurants, hotels, poolside loungers... areas that require a large shade solution with a touch of elegance and style.

The Papillon can accommodate seating for groups of 10 – 12 people.

Canopy half open

Closed with cover bag

Reduction gearbox for easy opening & closing

Papillon Rectangular Metal Base, designed for stability

Rain gutter system when joining two Papillons

Wind stabilizers folded down and locked

Can accommodate large seating groups

Piccolo

aluminum

Available in these shapes & sizes:

octagonal / 8 ribs

feet / meters
10.5 / 3.2

Code: PI32RA

square / 8 ribs

feet / meters
10.0 / 3.0

Code: PI30SA

This ingenious side post parasol range is exceptionally versatile and remarkably hard-wearing. The Piccolo boasts a 360° rotation and also a unique side-to-side tilting feature that is intelligently designed to allow the canopy to track the sun and cast the perfect shade throughout the day. The canopy fabric is attached using a quick-release system, making it a breeze to remove for seasonal changes or care and maintenance. Versatility, durability and aesthetic design all align to make the Piccolo a genuine patron of shade.

360° rotation can be achieved on the Piccolo spigot which is kept in place with index notches. The spigot pole can be mounted to various base systems and may also be fixed directly into position with the Free Standing, Deck Mount or Underground Mount options.

Picollo

versatile and durable side post parasol with aesthetic design features

Wind Rating: Light Wind

Application: Patios, restaurants, hotels, poolside loungers... or any area that requires a shade solution without obstruction from a center umbrella pole.

Closed and strapped

Closed with cover bag

*Piccolo Spigot fixed to the
Paver Base option*

*Left and right tilt can be locked
into the desired angle*

Smooth crank system to open and close

Galvanized Piccolo spigot

360° rotate, tilt & lock

Pendulum

stainless steel & aluminum

Available in these shapes & sizes:

octagonal / 8 ribs

feet / meters
13.0 / 4.0

Code: PE40RAS

square / 8 ribs

feet / meters
11.5 / 3.5

Code: PE35SAS

rectangular / 8 ribs

feet / meters
10.0 x 13.0 / 3.0 x 4.0

Code: PE34REAS

Strikingly bold, the Pendulum knows how to make the right impression. The Pendulum features 360° head-turning rotation, effortless opening and closing with a smooth crank system and a magnificent mix of premium quality stainless steel linkages, natural anodized aluminum and a eucalyptus hub. The Pendulum is poised at the pinnacle of side post parasols.

The Pendulum's patented canopy clip mechanism has been designed to facilitate the quick and simple attachment and removal of the entire canopy assembly. The canopy is attached with a stay that hooks onto the frame structure and clips the canopy securely into place.

Pavone

aluminum

Available in these shapes & sizes:

octagonal / 8 ribs

feet / meters
11.5 / 3.5

Code: PA35RA

square / 8 ribs

feet / meters
10.0 / 3.0

Code: PA30SA

rectangular / 8 ribs

feet / meters
10.0 x 13.0 / 3.0 x 4.0

Code: PA34REA

This side post umbrella makes for more free space. It offers shade without the usual center pole umbrella base taking up the space. This makes the Pavone especially suited for large areas, but also for private use. With an easy-to-operate crank mechanism, the umbrella and the shade is held by a high-quality aluminum structure that is rotatable, reclining and retractable.

The Pavone offers the flexibility only a side post shade can offer, with the convenience and flexibility of a foldaway function. The small folded footprint saves you space, while the 360° Rotate and Recline function makes the Pavone one of the most versatile shade solutions.

Pavone Pedal Spigot

Meticulously crafted from the finest grade kiln-dried eucalyptus (sourced only from sustainable forests), laminated for strength, along with premium quality weather-resistant fabrics and high grade stainless steel fittings. The Safari is Woodline's original classic wooden parasol design that proves the warmth of wood is still as popular as ever.

Features include a stainless steel pulley for smooth opening and an easy to remove smart canopy attachment system for seasonal changes or fabric care. The frame construction includes laminated hardwood upper and lower hubs for added strength.

1.9 inch pole Ø

Code: BR223REAE

The Bravura range is a brilliant contemporary take on the classic market parasol, combining the beauty and strength of mixed medium components. The sleek anodized aluminum frame is complimented by warm eucalyptus hubs bringing together the best of two worlds in a feat of engineered elegance. The double pulley system enables long lasting, smooth operation of the canopy, while stainless steel eyelets allow for easy fabric removal or updates.

The double pulley with genuine leather rope clip features stainless steel components enabling long-lasting, smooth operation of the canopy, while the smart canopy attachment system allows for easy fabric removal for washing or seasonal updates.

octagonal / 8 ribs

feet / meters
11.5 / 3.5

2.4 inch pole Ø

Code: ST35RSS

square / 8 ribs

feet / meters
10.0 / 3.0

2.4 inch pole Ø

Code: ST30SSS

Engineered for strength, the Storm is fashioned from ultra corrosion-resistant aluminum and high grade stainless steel. Its robust structure is designed to withstand the onslaught of nature's fury. Through careful consideration Woodline has selected and developed the most resilient canopy fabrics to be able to handle whipping winds and scorching sun, while the built-in quattro pulley system of pure stainless steel assures smooth and effortless operation day after day.

The 2.4" diameter centre pole with its 0.08" wall forms the backbone of the Storm. The pole, joint plates, pulleys, hubs and fittings including the canopy attachment eyelets are all forged from the highest grade stainless steel.

The Swift is a perfect parasol for small seating groups and compact areas like balconies and small gardens. Built with the finest materials available, this lightweight and portable design assures an easy setup and a trouble-free lifespan. The optional telescopic stainless steel pole makes it ideal for use over an outdoor table.

The only parasol on the market with a 1 inch stainless steel center pole. The height-adjustable pole option makes it a perfect solution for small spaces and getting your shade closer to your sun lounger, the handy pointed pole end also allows it to be used on the beach.

Telescopic pole option

concrete

base mounting options

Woodline concrete base systems are made to last. We use a combination of chemical additives, steel wire reinforcing and special fibres to add strength, longevity and a smooth superior finish.

Chemical Additives:

Our concrete bases are made with unique chemical additives for exceptional strength.

Steel Wire Reinforcing:

To eliminate fatigue all of our concrete bases feature steel wire reinforcing as standard.

paver base

The sturdy Paver Base consists of a hot-dipped galvanized metal frame housing standard 16" square paver slabs. The Paver Base frame houses either a single layer of 4 pavers (single layer ≥ 177 lbs/80 kg) or a double layer stack of 8 pavers (double layer ≥ 305 lbs/138 kg) with the aid of the included Extension Kit, which is fitted to the frame when more weight is required. Recommended paver size is 16" wide x 1.7" tall. To reduce shipping costs pavers can be purchased separately near installation location.

concrete base

Woodline's reinforced hexagonal Concrete Base fits any of our center pole parasols with various combinations of weights and tube sizes available for desired applications. Manufactured in our own plant using a unique combination of 35 MPa concrete with special fibres plus chemical additives & steel wire reinforcing. Comes with indents on two sides for easy handling and molded stainless steel inserts to take your choice of tube or spigot.

Indents for handling

metal

base mounting options

Woodline metal stands are available in hot-dipped galvanized or powder coated steel.

Hot-Dip Galvanizing:

To withstand even the harshest outdoor conditions, we use a hot-dip galvanizing process for longevity.

Powder Coating:

Our metal plate bases are powder coated, giving a high-end finish that prevents corrosion.

Nylon Rollers:

To enable easy positioning, our Square Metal Plate Base has added nylon rollers on one edge.

square
metal base

Nylon Rollers

The Square Metal Plate Base comes in two sizes for various wind exposures. Selected sizes come with rollers to aid mobility.

double stack
metal base

Designed for the side post ranges, but mounts any of our bolt-on pole stands to fit all our shades. It features height-adjustable nylon feet with stainless steel thread.

oval
metal base

The Oval Metal Plate Base is designed for our Sky dual post parasol, making it rock-steady in strong winds. Can also be bolted to the floor for extra stability.

rectangular
metal base

Dual Hole System

Designed to fit the Papillon shade - two Papillons can be mounted end to end using the dual hole system. Can also be bolted to the floor for extra stability.

round metal
base

Comes in one size and can be fitted with various tubes for the center pole range. Powder coated as standard and can also be bolted to the floor for extra stability.

alternative

base mounting options

In addition to the various metal and concrete bases, Woodline also manufactures alternative mounting solutions to meet every requirement.

deck mount

The Deck Mount is a stainless steel bracket that is bolted directly between the framework of supporting beams underneath a wooden deck. Your choice of Woodline pole or spigot is then bolted from above through the deck and directly onto the bracket.

Stainless steel construction

underground mount

The Underground Mount is designed to be concreted into the ground and is compatible with any of the Woodline shade solutions by means of a bolt-on pole stand for center and dual pole shades or spigot poles for our side post shades.

in-ground bayonet

Consists of two parts - the in-ground tube (which is concreted into the ground) & the bayonet tube (slides into the tube and fastens when twisted). Both parts are made of stainless steel.

screen printing

premium screen printed branding

Benefits of screen printed branding:

- Corporate spot colors can be matched
- Good printing thickness for clear logos
- Good light resistance for outdoor use

Best suited for these applications:

- Bold, flat color branding designs
- Pantone, metallic & luminous colors
- Solution dyed acrylic canopies
- Long lifespan brand campaigns

For the last thirty years Woodline Shade Solutions has been supplying a comprehensive range of top-quality, price-competitive OEM parasols for the local and international market. Well-known brands and contract market customers alike have benefited from our premium grade screen printing, providing excellent branding opportunities for commercial applications, making our parasols perfectly suited for use in the marketplace as well as in the home.

The screen printed method of branding is effective and long-lasting. A separate screen and positive film is required for each color. We can print up to 8 colors, including Pantones, metallics and luminous colors. CMYK process, halftone and index print techniques are also available.

digital printing

latex ink digitally printed branding *(only available on white polyester)*

Benefits of digitally printed branding:

- No limits to your branding designs
- Fast turnaround time
- Low set up costs & easy re-orders

Best suited for these applications:

- All-over patterns & photographic designs
- Designs using gradients or color fades
- Annual or bi-annual brand updates

Latex inks provide outdoor durability & versatility together with high quality odorless prints and a reduced environmental impact. The water-based formulation provides healthier print production than solvent inks without trading off performance. It contains no toxins, making it safe for use in dining areas, hospitals, schools, clinics etc. If your corporate mission statement includes a dedication to protecting the environment, you should make latex ink a part of your future marketing campaigns.

Water-based latex inks are nickel-free and odorless, providing outdoor durability and a healthy environmental footprint. Our inks meet a range of stringent human health criteria represented by UL ECOLOGO and GREENGUARD GOLD certifications.

fabrics

Colorfast & breathable - UV, water, mildew & stain resistant

Sunbrella is the world leader in outdoor fabrics and their Solution Dyed Acrylic is a perfect match for our range of resilient parasols. Colorfast and breathable while also being resistant to water, UV rays, mildew and stains, this fabric is built to last.

sunbrella™ Solution Dyed Acrylic

3729 Taupe

3789 Stone Grey

3741 Silver Grey

5453 Canvas

5404 Natural

3937 Lemon

5417 Tuscany

5477 Logo Red

3738 Macao

5446 Forest Green

5420 Mineral Blue

5401 Pacific Blue

5499 True Blue

5439 Navy Blue

5408 Black

UV / Fade Resistant

Saturated throughout with UV stable pigments, Sunbrella fabrics have high performance characteristics which are integrated into the fabric.

Mold / Mildew Resistant

Sunbrella fabrics resist the growth of mold and mildew. To keep clean, simply brush off dirt before it gets embedded in the product.

Bleach Cleanable

To remove tough stains, simply clean with a bleach solution. Because the pigment goes to the core of the fabric, it will not lose its color.

Breathable Comfort

Sunbrella shade fabrics are breathable and actually allow air to pass through them, creating a comfortable space below.

Solar Energy Used

A solar array at the Sunbrella plant is enough to power 47 homes and has reduced the plant's annual CO₂ emissions by 1000 tons.

Less Waste

Because Sunbrella fabrics last longer they ultimately create less waste than fabrics that mildew, fade or lose strength quickly.

Recyclable

Sunbrella provides a unique way for you to recycle your Sunbrella fabrics, read more at www.recyclemySunbrella.com.

Wastewater Reduction

None of the Sunbrella manufacturing facilities anywhere in the world send any waste to landfills, putting sustainability into practise.

* Colors may differ from printed examples. To accurately check color visit www.sunbrella.com or request a sample from one of our agents.

care & maintenance

The extreme nature of the outdoors dictates that proper care & maintenance will extend the lifespan of any item

Frames

Constructed from the finest quality aluminum, marine grade stainless steel and durable and sustainable eucalyptus timber. Our frames have been tested in some of the world's most inhospitable environments and have only ever benefited from the appropriate application of caution and common sense in excessive wind conditions.

We advocate the use of our cover bags to prolong the life of the canopy frames and their covering fabrics. We recommend the closure and safe storage of any collapsible and removable components when the parasol is not in use or when winds are expected to exceed 40 km/h (25 mph).

Wooden Components

We only use sustainable eucalyptus timber hand-picked for its strength, weather-resistance, and replenishment efficiency from the world's finest renewable plantations and timber mills. Our wooden components are treated with marine yacht varnish to fortify them for the rigours of outdoor living. We recommend the periodic care of wooden components with a light sanding and reapplication of the varnish coating once a year to maintain the natural beauty of the wood.

Fittings

All fittings, nuts, bolts, pulleys and cleat components are made with high grade stainless steel and weatherproof nylon. Maintaining these fittings and components is imperative to the longevity and the proper operation of the shade system. A simple occasional fresh water rinsing will help keep them working well and looking good.

Bases

It is essential to pick the right base for your parasol, consult the options for each product and talk to our sales team to ensure that the parasol you choose has the appropriate base to keep it anchored properly.

Fabrics

Our canopies and fabric covers are made from the most durable, colorfast, and dirt-repellent fabrics in the world. That said, proper care such as storage when not in use and cleaning from time to time will undoubtedly extend their lifespan.

Warranty

We produce the best quality products possible and are proud to be able to offer the following warranty on Woodline products, valid from the date of purchase:

Umbrella Structure: 24 months / 2 years • Sunbrella fabric: 60 months / 5 years

* The warranty in respect of the Sunbrella fabrics covers the fading of the color as a result of normal weather conditions and does not cover any other defects or damages. The warranty is not applicable to normal wear and tear, damage or loss caused by Acts of God or any other sources beyond Woodline's control, damage or loss caused by another device or product that is connected to the product, damage resulting from accidents, misuse, tampering or failure of the customer to follow the normal operating procedures as outlined in the user manual. The warranty is void if the damages are as a result of abuse, negligence, vandalism, improper installation, accidents, and exposure to abnormal weather conditions, poor transit, major force, failure to maintain or other causes which cannot be defined as a defect by Woodline. The warranty is void if repairs, alterations or modifications are done by a person not authorized by Woodline or if non-standard parts are used without prior written approval by Woodline. Woodline is not responsible for parts or labor coverage for component failure and or other damages resulting from improper usage, installation or failure to clean and/or maintain the Product as set forth by informational material. Woodline is not responsible for the repair or replacement of failed or damaged components resulting from unauthorized modifications to Products or the use of non-standard parts without prior written approval from Woodline. Woodline may provide the Purchaser with spare parts in order to resolve the defect during the warranty period. All warranties issued by Woodline are limited to only the original Purchaser of the Product. The warranty does not transfer with change of ownership.

Designed to endure in the great outdoors
